

Notification of Compliance Status for
National Emission Standards for Hazardous Air Pollutants: Area Source Standards
for Plating and Polishing Operations - 40 CFR 63 Subpart WWWWWW

This notification applies to facilities that meet the following criteria:

- The facility uses a process that includes electroplating (other than chromium electroplating); electroless or non-electrolytic plating; other non-electrolytic metal coating (such as chromate conversion coating, nickel acetate sealing, sodium dichromate sealing and manganese phosphate coating) and thermal spraying; dry mechanical polishing; electroforming; and electropolishing, and
The facility uses or has emissions of the following metal hazardous air pollutants (HAPs): cadmium, chromium, lead, manganese, and nickel. This does not include plating or polishing processes that use materials with less than 0.1% in weight of cadmium (Cd), chromium (Cr), lead (Pb), or nickel (Ni) and less than 1.0% of manganese (Mn) as reported on the Material Safety Data Sheet for that material.

Check this box if you meet the criteria and are subject to the requirements of 40 CFR 63 subpart WWWWWW []

All sources subject to this rule must submit this notification of compliance status by July 1, 2010. [A new source, anything started after March 14, 2008, must comply and submit the form upon startup.]

WDNR Facility ID (if applicable): _____

Company Name: _____

Owner Name/Title: _____

Owner Address: _____

Owner telephone number: _____

Owner email address (if available): _____

Is the Operator the same person as the Owner? Yes [] No []

If the Operator information is different from the Owner, please provide the following:

Operator Name/Title: _____

Operator Address: _____

Operator telephone number: _____

Operator email address (if available): _____

Address (physical location) of facility: _____

(1) The following are the operations at this facility subject to subpart WWWWWW (check all that apply):

Electroplating (noncyanide) <input type="checkbox"/>	Electropolishing <input type="checkbox"/>	Chrome conversion coating <input type="checkbox"/>	Thermal spraying (permanent line) <input type="checkbox"/>
Short-term noncyanide electroplating <input type="checkbox"/>	Electroforming <input type="checkbox"/>	Other electroless plating/coating/dipping <input type="checkbox"/>	Thermal spraying (temporary*, in-situ) <input type="checkbox"/>
Electroplating (cyanide) <input type="checkbox"/>	Electroless nickel <input type="checkbox"/>	Dry mechanical polishing <input type="checkbox"/>	

*For the purposes of this rule, "temporary" means that that the thermal spraying booth/line is used less than one hour per day.

(2) Use the following table to list each tank and HAP emitted or used and the compliance methods that are utilized on each tank. Compliance methods include:

- a. use of wetting agent/fume suppressant (WAFS);
- b. tank cover;
- c. control device;
- d. management practices (MP) (see page 4 of this form for a description);
- e. time limit (for short-term electroplating only).

Tank Description/ID No.	HAP Emitted or Used (Cd, Cr, Pb, Mn, Ni)	Check all Compliance Methods Currently used at your Facility	
		<input type="checkbox"/> WAFS <input type="checkbox"/> Tank Cover <input type="checkbox"/> Control Device	<input type="checkbox"/> MP <input type="checkbox"/> Time Limit
		<input type="checkbox"/> WAFS <input type="checkbox"/> Tank Cover <input type="checkbox"/> Control Device	<input type="checkbox"/> MP <input type="checkbox"/> Time Limit
		<input type="checkbox"/> WAFS <input type="checkbox"/> Tank Cover <input type="checkbox"/> Control Device	<input type="checkbox"/> MP <input type="checkbox"/> Time Limit
		<input type="checkbox"/> WAFS <input type="checkbox"/> Tank Cover <input type="checkbox"/> Control Device	<input type="checkbox"/> MP <input type="checkbox"/> Time Limit
		<input type="checkbox"/> WAFS <input type="checkbox"/> Tank Cover <input type="checkbox"/> Control Device	<input type="checkbox"/> MP <input type="checkbox"/> Time Limit
		<input type="checkbox"/> WAFS <input type="checkbox"/> Tank Cover <input type="checkbox"/> Control Device	<input type="checkbox"/> MP <input type="checkbox"/> Time Limit
		<input type="checkbox"/> WAFS <input type="checkbox"/> Tank Cover <input type="checkbox"/> Control Device	<input type="checkbox"/> MP <input type="checkbox"/> Time Limit
		<input type="checkbox"/> WAFS <input type="checkbox"/> Tank Cover <input type="checkbox"/> Control Device	<input type="checkbox"/> MP <input type="checkbox"/> Time Limit
		<input type="checkbox"/> WAFS <input type="checkbox"/> Tank Cover <input type="checkbox"/> Control Device	<input type="checkbox"/> MP <input type="checkbox"/> Time Limit
		<input type="checkbox"/> WAFS <input type="checkbox"/> Tank Cover <input type="checkbox"/> Control Device	<input type="checkbox"/> MP <input type="checkbox"/> Time Limit
		<input type="checkbox"/> WAFS <input type="checkbox"/> Tank Cover <input type="checkbox"/> Control Device	<input type="checkbox"/> MP <input type="checkbox"/> Time Limit
		<input type="checkbox"/> WAFS <input type="checkbox"/> Tank Cover <input type="checkbox"/> Control Device	<input type="checkbox"/> MP <input type="checkbox"/> Time Limit
		<input type="checkbox"/> WAFS <input type="checkbox"/> Tank Cover <input type="checkbox"/> Control Device	<input type="checkbox"/> MP <input type="checkbox"/> Time Limit
		<input type="checkbox"/> WAFS <input type="checkbox"/> Tank Cover <input type="checkbox"/> Control Device	<input type="checkbox"/> MP <input type="checkbox"/> Time Limit
		<input type="checkbox"/> WAFS <input type="checkbox"/> Tank Cover <input type="checkbox"/> Control Device	<input type="checkbox"/> MP <input type="checkbox"/> Time Limit
		<input type="checkbox"/> WAFS <input type="checkbox"/> Tank Cover <input type="checkbox"/> Control Device	<input type="checkbox"/> MP <input type="checkbox"/> Time Limit

- (3) If you have any permanent thermal spraying booths/lines or dry mechanical polishing processes that are subject to subpart WWWWWW (as indicated in #1 above), use the following table to list each unit and the HAP emitted or used and which, if any air pollution control device is currently being used.

Thermal Spray Booth/Line or Dry Mechanical Polishing Description/ID No.	HAP Emitted or Used (Cd, Cr, Pb, Mn, Ni)	Which Air Pollution Control Device Used?

- (4) If you have any temporary thermal spraying booths/lines subject to subpart WWWWWW (as indicated in #1 above), use the following table to list each unit and the HAP emitted or used and if any management practices are currently being used. For the purposes of this rule, "temporary" means that that the thermal spraying booth/line is used less than one hour per day.

Spray Booth/Line Description/ID No.	HAP Emitted or Used (Cd, Cr, Pb, Mn, Ni)	Which Management Practices are Used?
