Subject: **Approval-** Lodi Wastewater Treatment Facility (WWTF) Adaptive Management Plan (WI-0022918)

Dear Mr. Buhr:

Thank you for working with Columbia County Land & Water Conservation Department to provide the letter of support dated 10/18/2016 for the Lodi Adaptive Management Project. The Department understands that you are continuing to work with the Dane County Land & Water Conservation Department to finalize roles and responsibilities in accordance with the AM plan.

Sufficient evidence has been provided that Lodi WWTF will be able to comply with the minimum TP reduction requirement of 68 lbs/yr within Columbia County. The Department, therefore, approves the Lodi Adaptive Management Plan based on this demonstration. You should expect to see adaptive management requirements in the draft permit WI-0022918 for public notice including in-stream monitoring and the minimum TP reduction of 68 lbs/yr.

Thank you again, and we look forward to working with you as we continue the permit reissuance process.

Kind Regard,

Amanda Minks
Water Resources Management Specialist
