List the practices that will be used to generate credits:

Coordination with Marathon County is ongoing.

The Village of Marathon City recently (May 31st, 2016) submitted the WWTP Facilities Plan to the WDNR, with Water Quality Trading as the preferred option for phosphorus compliance. WQT as an option for phosphorus compliance has not yet been approved, nor have we received a response back from the DNR at this time. It is my understanding that a compliance schedule for Water Quality Trading will be included in our next WPDES Permit, therefore, I have filled out this form to the best of my ability at the time of this application.
