Sale Description:
This 59 acre sale is located in Woodman Township, Grant County Wisconsin. Access to this sale is via a DNR Parking Lot located along Hwy 13 (the “old Mt. Hope Fish Pond parking area”). The DNR land located here is called the Mt. Hope Rearing Station (Mt. Hope Fishery Area). The goal of this harvest is to regenerate oak, walnut and a desirable variety of central hardwood species. Two regeneration systems were used to designate trees for harvest. An overstory removal will be completed across 34 acres of this sale and a seed tree harvest is prescribed for the remaining 25 acres. The residual seed trees were designated by the forester maintaining a 20% relative density.

All invasive woody brush and most trees in the 1”-12” size class will be cut to the ground with undesirable trees and woody brush stump treated. This non-commercial work is scheduled to be completed prior to the commercial timber sale. Areas with minimal seedling regeneration will be planted with white oak seedlings.
