October 31, 2019

Department of Natural Resources
Notice of Sealed Timber Tract Bids

Dear Producers:

Sealed Bids will be received by the Department of Natural Resources for timber stumpage on the following timber tracts:

- Tract 05-19 - Willow River State Park, Pine Thinning, St. Croix County
- Tract 06-19 - Sand Creek Fishery Area, Hardwood harvest, Chippewa County
- Tract 07-19 – Muddy Creek Wildlife Area, Hardwood harvest, Dunn County
- Mondovi School Forest Pine Harvest, Town of Drammen, Eau Claire County

The State lands timber sales being offered are third-party certified. The Mondovi School Forest sale is not third-party certified.

Timber sale prospectus, bid forms, sample contracts, and detailed information on each timber tract are available on the WDNR website at: https://dnr.wi.gov/topic/TimberSales/statewide.html

*Paper copies are available at the Menomonie DNR Field Office, 921 Brickyard Road, Menomonie, WI.

For more information call: DNR Forester Rob Strand at (715) 505-0439

Bids may be hand delivered or mailed to the following:

Timber Sale Bid – Fall 2019
WDNR Field Office
921 Brickyard Road, Menomonie WI 54751

Bids will be opened on Thursday, November 21st, 2019 at 9:00 a.m. at the DNR office in Menomonie. No bid will be accepted after the date and time of the bid opening. The Department of Natural Resources, and the School District of Mondovi, reserve the right to accept or reject any or all bids.
Bids should be made with an as-is understanding:

- The Department does not guarantee access to sales across any non-state-owned lands. The purchaser will be responsible for arranging access to haul timber across adjoining private lands.
- DNR Foresters will assist in obtaining any necessary permits. The contractor will be responsible for any permit fees and any installation, removal and restoration costs.
- The State does not guarantee volumes. Bidders are strongly encouraged to inspect sales to make their own volume and quality determinations.

**Bidding Procedure for Timber Sales**

1) Bids will be made by species for each property/tract; however, a minimum bid for each species is not published. Wisconsin DNR Timber Bid Form, (Form 2400-049) must be used to make bids. Each bid submitted must include the tract number, contractor’s bid per cord, ton, or MBF for each species listed, and the bidder’s signature. Bids for each tract must be submitted in a separate sealed envelope.

   Acceptable bids must meet or exceed the total advertised sale value. Bids below total advertised sale value or bids that are incomplete will be rejected. A bid of zero for a particular species or product will be considered incomplete and will not be accepted.

2) The order of public reading of the timber sale bids will be done on a random basis. At any time, up until a sale is read out loud, bidders may pull their bid(s) from consideration. To remove a bid, bidders must be in attendance.

3) The successful bidder will be determined by the bid that is deemed the most advantageous to the State of Wisconsin. The State of Wisconsin reserves the right to reject any and all bids.

Within 6 weeks of the bid opening, the following items need to be provided for the State sales:

(Not: See the Mondovi School Forest prospectus for requirements pertaining specifically to that sale.)

1. **A Signed Contract** - Sample contracts are available upon request. The typical contract period is 3 years – 3 full winter seasons - unless otherwise noted in the prospectus.

2. **A Performance Bond** - For each contract, the winning bidder will submit a performance bond to the Department equal to the greater of 15% of the total bid value or $1000. Types of acceptable performance bonds are: personal check, certified check/cashier check/bank money order, irrevocable letter of credit, or surety bond.

   Maintenance of surety bond and/or of the performance bond shall be for four (4) full years from the date of the contract.
3. **Workers Compensation Insurance** - The successful bidder MUST HAVE WORKERS COMPENSATION INSURANCE and must provide a Certificate of Insurance indicating the Department of Natural Resources as a "certificate holder".

4. **FISTA Training Documentation** - Contractor must provide documentation confirming completion of the training standard throughout the duration of the sale.

5. If the winning bidder fails to execute the contract and submit an acceptable performance bond, the bidder shall be required to forfeit to the department an amount equal to 10% of the total bid amount. Failure to forfeit the 10% penalty will result in the bidder being considered ineligible to bid on any state timber sales for a two-year period.

**Payment Options**

**Scaled Sales**

There are two payment arrangements for scaled sales:

1. **DEFERRED STUMPAGE PAYMENT - IF ELIGIBLE**, the successful bidder must make stumpage payments within 30 days of being billed.

2. **ADVANCED STUMPAGE PAYMENT** - No wood will be hauled from the sale area at any time until it has been paid for.

**Lump Sum Sales**

Prior to hauling, payment may be made for the entire sale, by the block, or by some other means that is mutually agreed upon by the contractor and the WIDNR.

No refunds of stumpage payments will be made for un-removed wood, and wood left on the sale area at contract expiration shall revert to the seller.

**Contract Extensions**

Contract lengths are given on the prospectus or the timber sale map. Contract extensions are not guaranteed. All extensions will be for 1 year. Extension requests will be considered with the following conditions:

**Two year contracts**

- 1st extension – 5% increase in stumpage rate
- 2nd extension – an additional 10% increase in stumpage rate
Three year Contracts
• 1st extension – 15% increase in stumpage rate

CORDWOOD WEIGHT CONVERSION FACTORS POUNDS PER CORD
These factors will be used for all volume conversions (cords to tons or tons to cords) on the advertised State sales.

Minimum Bid Value: $18,909.00
Biomass Harvesting: Allowed (not req’d)
Scaling Method: Mill scale w/ haul tickets
Contract: 2+ year; ending November 30, 2022
Sale Area: 47 acres

Cutting Specifications

This is a marked selection thinning. Within existing plantation stands, cut all trees marked with orange paint. Use care to avoid and minimize damage to the residual trees.
Note: Cutting and skidding will only be allowed from June 1st through November 15th; ground conditions must be dry when harvesting operations occur.

Operational Considerations:

- Equipment operation will be suspended during wet periods when soils are prone to rutting, compaction, and erosion.
- Skidding/forwarding trails must be confined within the plantations except:
  - Limited equipment operation on, and crossings of, recreation trails will be allowed at agreed-upon locations.
  - Access to the northern patch of stand 6 (red pine) will require the contractor to cut an access path. See map for approximate location.
- Designated areas will be provided for landing, decking, and loading. (see map)
- All logging slash and debris must remain within the harvest areas, and must be lopped and scattered such that it lies no more than 2 feet above the ground.
- This sale requires the Purchaser to complete Heterobasidion Root Rot preventive treatment on all cut conifer stumps. Treatment involves chemically treating all fresh-cut stumps of pines of merchantable size by applying either “Rotstop C” (phlebiopsis gigantea) or “CELLU-TREAT” (disodium octaborate tetrahydrate). Treatment shall be made the same day as harvest and a dye product shall be added to liquid solutions for inspection purposes. The treatment must be applied by a Certified Pesticide Applicator.
- Temporary hazard signing and other precautions may be required to assure the safety of park visitors while logging operations are in progress.

Minimum Bid Value: $5,314.95  
Biomass Harvesting: Not Allowed  
Scaling Method: Mill scale  
Contract Ending Date: June 30, 2023  
Sale Area: 80 Acres

Cutting Specifications

Harvest area is bounded by red paint line and blue paint line (property boundary). Within the designated harvest area, cut all trees marked on the trunk and stump with orange paint. Cut all merchantable aspen and white birch. Do not cut boundary trees marked with red or blue.

Operational Considerations-

- In the north unit, harvesting, skidding, and hauling operations can occur only during frozen conditions. In the southern unit, harvesting, skidding, and hauling can occur only under frozen or dry conditions.
- Arrangements to access to the south harvest unit across private lands will be the responsibility of the purchaser. Access to the south unit may be possible from the north unit – but only under frozen conditions.
- Access to the north harvest unit via State lands will require a permit for a temporary stream crossing. The DNR Forester will obtain the water crossing permit. The purchaser will be responsible for installing and removing the temporary crossing materials in accordance with permit conditions.
- The temporary stream crossing structure will consist of a rocked ford and/or timber mats placed at grade. The DNR can provide timber mats for the crossing, but the purchaser will be responsible for hauling, placing, and removing them as necessary.
- The purchaser will be responsible for all brush clearing and grading required to re-establish and freeze down the existing access trail.
- The DNR Forester will be available for a pre-bid site tour with any interested bidders on Wednesday, November 13th, 2019. Start time for the tour will be 9:00 a.m. Meet at the east entrance gate/parking area off 765th Street.
Sale Area = 80 acres

Estimated Volumes
Mixed hwd. pulp/bolts: 1344 tons
Aspen pulp/bolts: 225 tons
Oak pulp/bolts: 165 tons
Mixed hwd. Sawlogs: 20,000 bd. ft.
Mixed oak sawlogs: 4,150 bd. ft.

Cutting Instructions:
Within the designated harvest area, cut all trees marked with orange paint. Also cut all merchantable aspen and white birch. Avoid damage to the residual stand of trees.
