STUMPAGE FOR SALE – STATE OF WISCONSIN DNR
INVITATION FOR BIDS

You are invited to bid on the enclosed State of Wisconsin DNR Timber Sales located in Green Lake, and Waushara Counties. Sealed bids for the timber sales will be received up to but no later than: 9:00 A.M. on November 21st, 2019 at:

Waucoma DNR Office
Attn: Mark Diesen
427 E Tower Dr. Suite 100
Waucoma, WI 54982

Tracts not sold on November 21st, 2019 will be available for re-bid up to, but no later than 9:00 A.M. on January 3rd, 2020.

BIDDER ELIGIBILITY REQUIREMENTS:
• These lands are 3rd party certified. The successful purchaser shall ensure that at least one in woods person actively engaged in performance of the timber sale contract and responsible for the logging site complies with Wisconsin SFI (Sustainability Forestry Initiative) Training Standard as adopted by the Wisconsin SFI Implementation Council (SCI). http://fistausa.org/content/how-become-sfi-trained
• Proof of Worker’s Compensation Insurance required.

BIDDING PROCEDURES:
• All bids must be submitted on the attached Timber Sale Bid form (Form 2400-049A) for each sale.
• Bidders bidding on more than one “tract” must submit separate sealed bids for each tract. “Timber Sale SEALED BID” with SALE NAME and TRACT NUMBER must be written on the outside of each separate envelope.
• Bid Bond Not Required. Winning bidders will have 6 weeks from the date of the bid opening to submit an acceptable performance bond to the department. If the winning bidder fails to execute the contract and submit an acceptable performance bond, the bidder shall be required to forfeit to the department an amount equal to 10% of the total bid amount. Failure to forfeit the 10% penalty will result in the bidder being considered ineligible to bid on any state timber sales for a two-year period.
• There is no guarantee of the quality or quantity of the wood products or volumes; therefore, bidders are encouraged to inspect each timber sale prior to bidding.
• An acceptable bid must have a price for each species and product listed for each sale.
• The Department of Natural Resources reserves the right to reject ANY and ALL bids.

CONTRACTS & EXTENSIONS: (sample contracts available upon request)
• A signed TIMBER SALE CONTRACT and PERFORMANCE BOND (15% of the total sale value), unless stated otherwise, is required within 6 weeks of the bid opening and before work is commenced. An Irrevocable Letter of Credit issued as a performance bond must extend a minimum of 1 year past the contract ending date.
• CONTRACT EXTENSIONS, if granted, will be for 1 year in length with an initial 15% value increase in stumpage price.
• Contracts may not be assigned.
• Contracts may contain additional provisions
• All sales are authorized for 30-day deferred payment for all qualified purchasers.
• A pre-sale meeting with the seller and purchaser is required before commencing work to include moving equipment on site. Two-week notification is required, although all attempts will be made to meet as soon as possible.

SCALING SPECIFICATIONS:
• Unless otherwise stated on the prospectus, sale methods will be by “mill scale” in conjunction with “haul” ticket system. Mixed loads of species and/or products, of different stumpage values, will be charged at the higher dollar value.

</tbody>
</table>

- **Board foot Conversion:**
  - Softwoods (conifer): 1 MBF = 2.44 cords
  - Hardwoods (deciduous): 1 MBF = 2.20 cords

- All trees marked or designated will be cut and utilized to a minimum top diameter of 4 inches for hardwood and 3 inches for softwood. Saw logs marked will be utilized to a minimum of 10.6 inches DIB.

- Any firewood sold to a private entity must either be stick-scaled by DNR prior to leaving the timber sale or be sold via a triplicate ticket system. With the latter system, logger, landowner, and DNR will all receive a copy of each ticket. This will allow DNR to ensure the volume sold to the private entity is the same as that paid for by the contractor. Each triplicate ticket will have a unique assigned number for tracking purposes. Each ticket will also include the buyer’s name and contact information. Any such triplicate system shall be approved by DNR prior to initial implementation on a timber sale.

The following general items are common to all sales unless otherwise stated and are considered important to both the bidding process and successful contract compliance: *(sample contracts available upon request)*

• Please refer to the sale prospectus for specific contract periods.

• **Oak Will Restrictions:** No cutting or skidding in stands managed for oak will be permitted from April 1-July 15, unless otherwise noted on the prospectus. Restricted dates may vary based on current Oak Harvesting Guidelines.

• All Wisconsin BMP’s for water quality shall be followed.

• All equipment must be cleaned prior to entering and leaving the sale.

• Slash must be evenly scattered across the sale area to not exceed a height of 24” off the ground, unless otherwise noted.

• Harvesting of unmarked or undesignated timber or damage caused by negligence or carelessness will not be tolerated and shall result in double liability of the mill value.

• Landing and road locations must be approved by the DNR forester and/or property manager prior to construction. All existing trails and roads must be maintained or improved to pre-sale conditions.

• DNR will ensure access to the timber sale; however, access across private property (if desired) is the responsibility of the contractor.

• All pine cut from April 1 - September 1 must be hauled within 3 weeks of cutting.

• Do not cut any boundary trees painted with red, blue, yellow, or purple paint throughout the timber sale areas.

• Several sales require the application of chemicals by a **CERTIFIED PESTICIDE APPLICATOR**. The cost of applications can vary based on application method and harvest conditions, but should be considered when submitting bids on these timber sales.

• **Heterobasidion root disease (Annosum root rot) Prevention Treatment:** Unless otherwise stated on the prospectus, ALL sales requiring the cutting of conifers will also require the Purchaser to complete Heterobasidion root disease (Annosum root rot) preventative treatment from April 1 to November 30, or under unusually warm weather between December 1 thru March 31. Treatment involves chemically treating all fresh-cut stumps or significant wounds on conifers of merchantable size by applying CELLU-TREAT (disodium octaborate tetrahydrate) or Rotstop C (P. gigantea). Treatment shall be made within 24 hours of cutting and a dye product shall be added to liquid solutions for inspection purposes. Unless treated immediately after cutting and before the next tree is cut, ALL stumps shall remain clear of slash for application and administration purposes.

MINIMUM BID:
Minimum bid for this sale will be $25,883.60.

ACCESS:
Sale is located in multiple areas both west and east of 17th Dr. and/or Swamp Road. One harvest area is most easily accessible west of 17th Dr. through private land. Bidder is responsible for acquiring access through private lands. A second area is accessed directly from the north side of Swamp Rd. The remaining areas can be accessed via DNR parking areas on the east side of Swamp Road. All applicable BMP's shall be followed.

DESCRIPTION OF STUMPAGE:
This 50-acre timber sale consists of a spruce, white pine, red pine thinning (12 acres), several areas of overstory removal/aspen coppice/white pine seed tree (32 acres) and a tamarack regeneration harvest (6 acres). Topography is level.

HARVESTING PERIOD:
- Low areas exist within the timber sale area; therefore, this is a dry or frozen ground sale. Applicable BMP's shall be followed accordingly. Two areas are restricted to no cutting April 1st to July 15th due to oak wilt concerns (see map).
- Contract length is 2 years or 2 cutting cycles (ex. November 17, 2019 to November 17, 2021) from the sale date.

HARVESTING/SALE REQUIREMENTS:
- See cover letter for additional requirements.
- See map legend for harvesting specifications. All dead snags that do not pose an immediate risk during the felling/scidding operation will be retained for wildlife purposes.
- All slash shall be contained within the sale area. No trees shall be felled in the adjacent wetlands (not within sale area) and/or Soules Creek.
- Extra care is to be taken to prevent damage to existing regeneration.
- NHI Concerns: Landings must be pre-approved by DNR Forester to avoid take of a potential NHI elements.
- Heterobasidion root disease (HRD) preventative treatment required on all conifer stumps. Treatment not required if harvesting December 1st - March 31st (unless unusually warm weather occurs).
- Two areas are restricted to no cutting April 1st to July 15th due to oak wilt concerns (see map).

The award shall be based on this TOTAL BID AMOUNT:

**Performance Bond**

Will be in the form of: (select one)

- Cash
- Personal Check
- Certified Check/Money Order
- Irrevocable Letter of Credit
- Assurance Bond
- Certificate of Deposit
- Assignment of Savings Account

I understand that any or all bids may be rejected and that consideration and awarding of a contract will be based upon my past performance and ability to complete contracts. **I also understand that if I am the winning bidder, I have 6 weeks from the date of the bid opening to submit an acceptable performance bond. I also understand that if I am awarded the contract and fail to execute it or work under it, I will be required to forfeit to the Department an amount equal to 10% of my total bid amount.** Failure to forfeit the 10% penalty will result in being considered ineligible to bid on any state timber sales for a two-year duration. In the event the highest bidder can not or will not sign the contract, the award will be made to the next highest qualified bid.

**Notice:** I understand:

- Utilization specifications and estimated volumes are listed in the prospectus which is available upon request from the Department.

- A copy of the standard timber sales contract which must be entered into is available upon request from the Department.

ACCESS:
Sale is located in multiple areas east and west of County Rd. EE and 2 small units north or Beechnut Ln. The western unit is most easily accessible through private land off County Rd W. Bidder is responsible for acquiring access through private lands. All applicable BMP’s shall be followed.

DESCRIPTION OF STUMPAGE:
This 71-acre timber sale consists of red pine thinning (2 acres), several areas of aspen and oak clear-cut/shelterwood regeneration (64 acres), Red Maple shelterwood regeneration (3 acres), and a tamarack regeneration harvest (2 acres). Topography is level.

HARVESTING PERIOD:
- Low areas exist within the timber sale area; therefore, this is a dry or frozen ground sale. Applicable BMP’s shall be followed accordingly. All oak units are restricted to no cutting April 1st to July 15th due to oak wilt concerns (see map).
- Contract length is 2 years or 2 cutting cycles from the sale date.

HARVESTING/SALE REQUIREMENTS:
- See cover letter for additional requirements.
- See map legend for harvesting specifications. All dead snags that do not pose an immediate risk during the felling/skidding operation will be retained for wildlife purposes.
- All slash shall be contained within the sale area. No trees shall be felled, and no slash shall be left in the adjacent wetlands.
- NHI Concerns: Landings must be pre-approved by DNR Forester and Property Manager to avoid take of a potential NHI elements.
- Heterobasidion root disease (HRD) preventative treatment required in the red pine unit. Treatment not required if harvesting December 1st – March 31st.

BIDDING SPECIFICATIONS:
- All successful bidders must provide certification documentation for SFI, FSC, and Chain of Custody.
- Any and all bids may be rejected.
- Sealed bids must be received at the Wautoma Service Center either by USPS mail or hand delivered prior to November 21st 2019 at 9:00 AM.

SPECIAL CONDITIONS:
- All equipment shall be free of debris prior to moving on site to prevent the spread of invasive plants.

**Volumes cruised by various Southern District DNR Foresters**

ACCESS:
This sale is approximately ½ mile northwest of Wautoma, west of State Highway 73, south of Brown Deer Drive and north of County Road C. Access to the north will be off of Brown Deer Drive, through the DNR parking lot area. Access to the south will be off of County Road C through deeded easements, as indicated on the map. The winning bidder would be responsible for acquiring alternative access through private lands, if they so desire.

DESCRIPTION OF STUMPAGE:
Majority of this timber sale is a northern hardwood stand on a mesic to wet-mesic soil, comprised of sugar maple, yellow birch, basswood, ash, and red maple, with smaller components of swamp white oak, red oak, shagbark hickory, tamarack, white birch and aspen. The objective is to regenerate this area primarily through shelterwood, coppice and seed tee. A minor component of this timber sale is a tamarack and aspen stand. The objective is to regenerate this area through coppice and seed tree. Topography is level.

HARVESTING PERIOD:
- Harvesting period is from Oct 1 – April 14 due to NHI restrictions, with frozen (non-soil disturbing) ground conditions. If an active nest of the NHI bird species is noted within the timber sale area, harvesting period is from Oct 1 – March 14. A nest was noted during sale establishment.
- Landings will be approved by DNR Forester prior to installation, to avoid take of NHI concerns.
- All applicable BMP’s for water quality restrictions apply. Most of this site is wet.
- Contract length is 3 years or 3 cutting cycles.

HARVESTING/SALE REQUIREMENTS:
- See cover letter for additional requirements.
- See map legend for harvesting specifications. All dead snags that do not pose an immediate risk during the felling/skidding operation will be retained for wildlife values.
- Heterobasidion root disease (Annosum root rot) preventative treatment is recommended (but not required) for conifer stumps. See cover letter for specific information.
- All slash shall be contained within the sale area. No trees shall be felled and no slash shall be left in Bowers Creek, the intermittent streams, or stream crossing locations.
BOWERS CREEK SALE TIMBER SALE

Sale #7014-126 Tract #02-17
Sec 28 and 33 T19N R10E
Wauneta Township, Waushara County
87 Harvest Acres

Prepared By: Mackenzie Siglinsky
Date: 08/19/2016

**This map is not a survey of the actual boundary of any property this map depicts. Timber sales are in evaluation stage. Harvest boundary areas and cutting prescriptions are subject to change, pending on-the-ground conditions. Where the stand is dominated by 50% or more conifer species, all conifer stumps shall be treated with an approved fungicide (e.g. Cell-o-treat, Sporox, Rot Stop) to help prevent the introduction and spread of Heterobasidion root rot disease (Annosum root rot). Fungicide treatment is recommended but not required for all remaining conifer stumps. In regeneration harvest areas, Woody species (Black Locust, Box Elder, Buckthorn, honeysuckle, Multiflora Rose, Oriental Bittersweet, and other undesirable woody species) may be spot treated (cut stump, basal bark, and foliage, or continual spray patches smaller than 1/10 acre) with herbicide (Triclopyr, Glyphosate, Aminopyralid, Metolachlor, 2, 4-D, Clopyralid, Dicamba). FSC prohibited pesticides may not be used during application. Site is an upland site/wetland site and will be treated when ‘seasonally dry’ (treated without standing water or saturated soil).

Will be in the form of: (select one)

- Cash
- Personal Check
- Certified Check/Money Order
- Irrevocable Letter of Credit
- Performance Bond
- Assurance Bond
- Certificate of Deposit
- Assignment of Savings Account
I understand that any or all bids may be rejected and that consideration and awarding of a contract will be based upon my past performance and ability to complete contracts. I also understand that if I am the winning bidder, I have 6 weeks from the date of the bid opening to submit an acceptable performance bond. I also understand that if I am awarded the contract and fail to execute it or work under it, I will be required to forfeit to the Department an amount equal to 10% of my total bid amount. Failure to forfeit the 10% penalty will result in being considered ineligible to bid on any state timber sales for a two-year duration. In the event the highest bidder can not or will not sign the contract, the award will be made to the next highest qualified bid.

Notice: I understand:

- Utilization specifications and estimated volumes are listed in the prospectus which is available upon request from the Department.
- A copy of the standard timber sales contract which must be entered into is available upon request from the Department.

Location:

SWNW, NWSW & SWSW of Section 27;
NESE & SESE of Section 28;
NENE of Section 33;
NWNW & SWNW of Section 34
Town of Lake
Waushara County

Harvest Specifications:

1st Thinning Red Pine Plantation
- 17 acres

**Cut all trees marked on the stem and the stump in orange paint. Cut all other trees within stand boundary 4” or less DBH.

Oak, Maple & Birch
Regeneration – 63 acres

**Cut all trees greater than 1”dbh. Retain all trees marked on the stem and stump in green paint. Leave all White & Red pine and Yellow Birch.

Aspen & Oak Regeneration
Harvest – 9 acres

**Harvest all stems 1”dbh and greater. Retain standing snags (dead trees) that are not a safety concern, white pine and any trees marked with green, red or blue paint.

Oak Thinning – 11 acres

**Cut all trees marked on the stem and the stump in orange paint.

Contact:

Mark Diesen
Department of Natural Resources
427 E. Tower Drive
Wauna, WI 54982
(920) 647 6991

Please submit written bid per species and product to the above address by 9:00 am on:

November 21st, 2019

*Terrain is rolling uplands and low ground.

ESTIMATED VOLUMES

Aspen pulp 108 tons
Oak sawtimber 37 MBF
Oak pulp 915 tons
Mixed Hardwood sawtimber 55 MBF
Mixed Hardwood pulp 1129 tons
White Pine mixed product 52 tons
Red/Scotch Pine mixed product 479 tons
Jack Pine pulp 21 tons

**No cutting or skidding will be allowed from April 1st to July 15th to prevent the spread of oak wilt.

**Heterobasidion root disease treatment required. See cover letter for specific information.

*Property boundaries are marked with state boundary signs and BLUE paint.
** This map is not a survey of the actual boundary of any property this map depicts. Timber sales are in evaluation stage. Harvest boundary areas and cutting prescriptions are subject to change, pending on-the-ground conditions. Where the stand is dominated by 50% or more confier species, all confier stumps shall be treated with an approved fungicide (e.g. Cali-Teat, Spyro, Rot Stop) to help prevent the introduction and/or spread of Heterobasidion root disease (Amenosum root rot). Fungicide treatment is recommended but not required for all remaining confier stumps. In regeneration harvest areas: Woody species (Black Locust, box Elder, Buckthorn, Honeysuckle, Multiflora Rose, Oriental Bittersweet, and other undesirable woody species) may be spot treated (cut stump, basal herb, and foliar, or chemical spray patches smaller than 1/10 acre) with herbicides (Triclopyr, Glyphosate, Aminopyralid, MetaSulfonyl, 2, 4-D, Clopyralid, Dicamba). FSC prohibited pesticides may not be used during application. Site is an upland stand/woodland site and will be treated when "seasonally dry" (treated without standing water or saturated soil).

PINE RIVER SYSTEM FISHERY AREA 
PROPERTY #7009, TRACT #9-16, SALE NUMBER 122 
HARVEST AREA – 85 Acres

Location:
- SWNW, NWSW, NESW, SENW Sec 25
- & NENE, NESENE, NWSE Sec 26, Town of Rose (T20N, R10E)
- This sale is in Wausau County. See attached map

Forester/Contact:
Mark Diesen 
920-647-6991
Mark.Diesen@wisconsin.gov

Cutting Requirements:
- Area SW – Shelterwood Regeneration Harvest (Orange diagonal lines, 65 ac.): Harvest all stems greater than 1" diameter DBH not marked with PURPLE paint. Trees painted with purple are to remain standing and also the boundary trees marked with blue or red paint are to be left standing. Any dead trees may be cut and utilized at the contractor’s discretion. Do not, however, fell any dead trees or snags that will not be utilized, unless they present a safety hazard.
- Area TH – Thinning (Yellow horizontal lines, 12 ac.): Cut all trees marked with ORANGE paint and all aspen trees. Do not cut any border trees marked with blue or red paint or any dead, standing timber unless it poses a safety hazard.
- Area CC – Clearcut (Green crosshatched lines 8 ac.): 4 acres are a plantation of Scots Pine to be cleared and the other 4 acre patch is Aspen to be coppiced. Cut all trees within the red paint line boundary. Do not cut any border trees marked with blue or red paint.

</tbody>
</table>

* If applicable, standard DNR cordwood weight conversions will be used. See the invitation for bids cover sheet for more information. All trees marked or designated will be cut and utilized to a minimum top diameter of 4 inches for hardwoods and 3" for softwoods.

Minimum acceptable bid: $28,568.63

Contract and other Sale Requirements:
- Harvesting may occur year round in the pine plantations or aspen. No cutting, skidding or hauling is allowed in all other stands from April 1-July 15, to prevent the introduction and/or spread of oak wilt. Low areas exist within the sale area. All BMP’s must be followed.
- Contract length is 2 years or 2 cutting cycles.
- Blue paint lines on the timber sale maps and on the ground designate property boundaries, while red lines signify interior sale boundaries. Boundary trees marked with blue or red paint shall not be cut.
- Landing will be agreed upon with the contractor at the time of cutting. At the completion of the sale, all existing wood roads/trails and landings shall be rut and slash free, and as good or in better condition as they were before the sale. Decking/landing areas will be in locations not containing lupine, thus minimizing impacts to an NHI concern, should it be present. The “L”s on the timber sale map represents possible log landings.
- Sawlogs from this sale will be scaled by a DNR Forester while the wood is on the landing. Logs should be displayed for inspection so that volume defects are evident.
- Pulpwood from this sale will be mill scaled and utilize a ticket box system.
- In order to minimize the spread of invasive plants, All equipment must be washed/cleaned prior to entering and leaving sale. Work must proceed from the furthest reaches back toward the landings.
- All dead snags that do not pose an immediate risk during the felling/skidding operation will be retained for wildlife purposes.
- Annosum root rot preventative treatment required. See cover letter for specific information.

The award shall be based on this TOTAL BID AMOUNT:

Performance Bond

Will be in the form of: (select one)

- Cash
- Personal Check
- Certified Check/Money Order
- Irrevocable Letter of Credit

- Assurance Bond
- Certificate of Deposit
- Assignment of Savings Account

I understand that any or all bids may be rejected and that consideration and awarding of a contract will be based upon my past performance and ability to complete contracts. I also understand that if I am the winning bidder, I have 6 weeks from the date of the bid opening to submit an acceptable performance bond. I also understand that if I am awarded the contract and fail to execute it or work under it, I will be required to forfeit to the Department an amount equal to 10% of my total bid amount. Failure to forfeit the 10% penalty will result in being considered ineligible to bid on any state timber sales for a two-year duration. In the event the highest bidder can not or will not sign the contract, the award will be made to the next highest qualified bid.

Notice: I understand:

Utilization specifications and estimated volumes are listed in the prospectus which is available upon request from the Department.

A copy of the standard timber sales contract which must be entered into is available upon request from the Department.
