DEPARTMENT OF NATURAL RESOURCES  
Babcock, Wisconsin  

PUBLIC NOTICE  
Invitation For Bids on the  
SANDHILL-MEADOW VALLEY WORK UNIT AND OTHER STATE PROPERTIES  

Spring 2017  

The property Superintendent or his agent will receive sealed bids at the Sandhill Wildlife Area Headquarters, PO Box 156, 1715 Hwy X, Babcock Wisconsin 54413-0156 for 11 tracts of timber located on the Meadow Valley Wildlife Area, Wood County Wildlife Area, Sandhill Wildlife Area, Buckhorn State Park and other state managed lands. Bids will be accepted until 10:00 AM on Thursday May 11, 2017 and will be opened publicly immediately thereafter.  

The tracts are located in the Towns of Remington, Dexter and Saratoga in Wood County, the Towns of Kingston, Cutler and Germantown in Juneau County and in the Town of Bear Bluff in Jackson County.  

The tracts comprise a total of 889 acres and contain the following estimated volumes:  

<table>
<thead>
<tr>
<th>Species</th>
<th>Volume</th>
</tr>
</thead>
<tbody>
<tr>
<td>Aspen</td>
<td>2,718 tons</td>
</tr>
<tr>
<td>Oak</td>
<td>13,113 tons</td>
</tr>
<tr>
<td>Mixed Hardwood</td>
<td>2,966 tons</td>
</tr>
<tr>
<td>Jack, Red and White Pine</td>
<td>7,292 tons</td>
</tr>
</tbody>
</table>

A timber sale prospectus and detailed information including maps for each tract, as well as required bid forms and copies of sample contract forms, can be obtained by contacting the Forester at the Sandhill Wildlife Area Headquarters or by calling (715)884-6334.  

These timber sales are certified to the standards of the Forest Stewardship Council (FSC) as responsibly managed (license code FSC-C006979) and to the standards of the Sustainable Forestry Initiative (SFI) program. Forest products from these sales including logs or chips of all species may be claimed as "FSC 100%" under certificate SCS-FM/COC-00070N or "100% SFI certified" under certificate NSF-SFI-FM-1Y941.  

Bidding Requirements  

All bids must be submitted on a Department Timber Sale Bid Form and shall include the following:  

1. Tract number  
2. List of all species to be cut and estimated volumes as listed on the timber sale prospectus.  
3. Bid price per unit for each species listed.  
4. No bid bond is required. Winning bidders will have 6 weeks from the date of the bid opening to submit acceptable performance bond to the department. If the winning bidder fails to execute the contract and submit an acceptable performance bond, the bidder will be required to forfeit to the department an amount equal to 10% of the total bid amount. Failure to forfeit the 10% penalty will result in the bidder being considered ineligible to bid on any state timber sales for a two-year period.  
5. Indicate the type of performance bond to be used by checking the appropriate box on the bid form.  
6. Signature and address of the bidder.  
7. Total bids must meet or exceed the advertised value / minimum acceptable bid listed for the entire sale to be valid.
Additional Requirements

At any time prior to the reading aloud of any bids for a particular sale, bidders may withdraw their bid from consideration. This can be done in person or by written instruction to the DNR Forester conducting the bid opening.

Winning bidders will have 6 weeks from the date of the bid opening to submit an acceptable performance bond to the department. The performance bond must be equal to 15% of the total bid value or $1,000.00, whichever is greater. An Irrevocable Letter of Credit issued as a performance bond will be required to be 4 1/2 years in length. Letter of Credits for sales awarded this bid opening should be written to expire November 11, 2021.

Worker’s compensation Law: The contractor (purchaser) shall provide the Department with an original Certificate of Insurance indicating that Worker’s Compensation Insurance coverage is provided for all of the contractor’s employees working under the contract during its duration. This shall be in the Department’s file prior to any performance under this contract.

Payments: Timber will not be removed from any sale area until paid for or a satisfactory guarantee for payment is made. However, qualifying contractors have the option to sign a contract under the deferred payment program. Under this program, payment shall be received by the DNR Forester within 30 days of the date of billing. Failure to pay within the 30 day period shall result in the contractor being required to prepay stumpage on the remainder of the sale and a 1.5% every 30 days late interest penalty being assessed or stumpage due.

Training Requirement: The purchaser is responsible for ensuring that the actual logging contractor complies with the Wisconsin SFI training standard as adopted by the SFI Implementation Committee (SIC). Criteria for the standards can be found at the website www.fistausa.org/sfi_standards.html, or by contacting the Forest Industry Safety and Training Alliance (FISTA). Purchaser must provide documentation to the Seller indicating that training has been completed.

Sales and Use Tax Exemption Certificate: The contractor (purchaser) shall provide the Department with a copy of their Department of Revenue Sales and Use Tax Exemption Certificate. This shall be in the Department’s file prior to any performance under this contract.

The Department of Natural Resources reserves the right to reject any or all bids.

Additional Information

Weight conversion factors (if needed) will be those listed as Option 2 in the Wisconsin DNR Timber Sale Handbook unless otherwise specified (copy available upon request).

The harvest objective of Tract MV3-15 is the creation of oak barrens. Note that biomass harvesting will be allowed (but is not required) on the tract. All slash and/or tops must be removed from the sale area regardless of the chosen utilization standard. If interested in harvesting biomass on this tract, be sure to use the “Whole Tree” volume estimates shown on the prospectus when bidding. Those who bid using the “whole tree” estimated volumes must utilize all biomass. Bids will be evaluated on the basis of high bid regardless of the chosen utilization standard. Please contact the Forester with any questions regarding this requirement. Biomass harvesting will not be allowed on any of the other sales.

The access roads into tracts SH1-16 and MV2-16 are gated. The combination to the gate is the tract number (ie. Tract 2-16 = combo 0216). Both of these access roads have some soft portions but are driveable during most times. Please don’t drive on these roads during wet periods in order to avoid road damage. In addition, please make sure that all gates are closed immediately after entry or exit.

Orange ribbon has been hung to aid you in locating the tracts. In cases where it’s necessary to walk through the forest to get to a sale; orange ribbon has been hung to identify the best route. This may not always be the best route to access the sale for harvest operations.

For additional information or clarification regarding sales contact the DNR Forester listed in the upper right corner of the prospectus.

NOTE: Bid form (2400-49A) is enclosed. Feel free to make your own copies if you need more.

BID EVALUATION: Bids will be evaluated on total value of estimated tons and cords.

ADVERTISED VALUE/Minimum Acceptable Bid: $7,274.00

SALE OBJECTIVES: The harvest site consists of 19 acres of mature jack pine and scrub oak. The objective of the harvest is to regenerate the area to similar tree species and to encourage the regeneration of White Pine to maintain species diversity. These objectives will be accomplished by clearcutting the entire sale area with some reserves so it can naturally regenerate by seed and coppice sprouting.

CUTTING AREA DESCRIPTION: This 19 acre timber sale is bounded on the north side by Highway G and on the east by the access trail shown on the attached sale map. The remainder of the sale is bounded by red paint marks. Landings are subject to DNR property manager/ or DNR forester.

CUTTING REQUIREMENTS/SPECIFICATIONS:
- Within the timber sale area, cut all trees greater than one inch DBH except White Oak, Burr Oak, Red Pine, and White Pine or any tree that has red paint marks or green paint marks.
- No cutting from logging equipment or trucks will be allowed. Rut damage provisions are included in the timber sale contract.
- There are Oak Wilt and park recreational use restrictions for this sale - cutting and forwarding operations are not allowed between April 1st and Labor Day.
- Utilize all trees to a minimum 5 inch top diameter.
- No biomass harvesting will be allowed.
- There is an Anomosum restriction - Jack Pine stumps must be treated for Anomosum between April 1st and November 30th.

ACCESS: There is great access to the sale from County Highway G. In addition an access road runs along the entire east side of the sale area. The successful bidder will have access through the gate to this access road during the contract period.

OTHER SALE REQUIREMENTS AND CONDITIONS:
- Wisconsin River Power Co. (WRPCo.) has “Right of First Refusal” on this timber. The tentative accepted bid will be delivered to WRPCo. Within 30 days of bid opening, WRPCo has 30 days to exercise their first right of refusal by matching or exceeding the amount of the tentative accepted bid. If WRPCo. Matches or exceeds the tentative accepted bid within the 30 day period, the timber sale will be awarded to WRPCo.
- The WI-DNR can restrict the type of equipment used on the job if conditions or damage warrant.
- Weight/volume conversion factors (if needed) will be those listed on page 12-1 of the Wisconsin DNR Timber Sale Handbook.
- BMP’s (see Field Manual PUB-FR-093-2010) are mandatory for this timber sale.
- Notify the WI-DNR at 715-421-7843 before you start the job and every time you leave or return to the job.
- Check the contract for other requirements.

BID EVALUATION: Bids will be evaluated on value of estimated tons and cords.

ADVERTISED VALUE/Minimum Acceptable Bid: $17,994.80

SALE OBJECTIVES: The total size of this sale is 89 acres with 71 acres consisting of mature and over mature Aspen and Central Hardwoods, and 18 acres of Red Pine. The objectives of this sale will be to regenerate the Aspen and Hardwood areas to similar tree species, and to thin the Red Pine areas to improve spacing and provide for good future growth on remaining trees. This sale will also work to regenerate forest along the Ten Mile Creek and Ross Lake to ensure future stream bank stabilization and erosion control.

CUTTING AREA DESCRIPTION: This harvest site is a total of 89 acres in size. Approximately 18 acres of Red Pine thinning, and the remaining 71 acres is a clear-cut harvest of Oak and mixed Hardwood in the Uplands and Aspen in the lower areas. The entire sale area is bounded by blue and red paint lines or town and county roads. There are three cutting units as part of this sale. Cutting requirements are listed below.

CUTTING REQUIREMENTS/SPECIFICATIONS:
- Cutting Unit A: Cut every third row of Red Pine and any Scotch Pine. Do not cut any other tree species.
- Cutting Unit B: Cut all trees to one inch DBH except for the following list of retention trees White Oak species, Cottonwood, River Birch, Red Maple White Spruce, or any Red or White Pine unless marked with orange paint. Also do not cut any tree with green paint marks or blue paint marks.
- Cutting Unit C: Cut all Merchantable trees 5 inch DBH and greater except the following list of retention trees. Any White Oak species, River Birch, Red and White Pine, any tree with blue paint marks or green paint marks.
- Whole tree utilization is not allowed.
- No cutting from logging equipment or trucks will be allowed. Rut damage provisions are included in the timber sale contract.
- This sale will be frozen ground only.

ACCESS: Access to cutting units A and B will be directly off of Ten Mile Ave and County Highway Z. Access to cutting Unit C will be from the private access road off of County Highway Z shown on the attached timber sale map. Permission to use this private access road will be the responsibility of the successful bidder.

OTHER SALE REQUIREMENTS AND CONDITIONS:
- The WI-DNR can restrict the type of equipment used on the job if conditions or damage warrant.
- Weight/volume conversion factors (if needed) will be those listed as Option 2 on page 12-1 of the Wisconsin DNR Timber Sale Handbook.
- BMP’s (see Field Manual PUB-PR-093-2010) are mandatory for this timber sale.
- Notify the WI-DNR at 715-421-7843 before you start the job and each time you leave or return to the job.
- Check the contract for other requirements.

BID EVALUATION: Bids will be evaluated on value of estimated pulpwood tons.

ADVERTISED VALUE / MINIMUM BID: $20,648.00

SALE OBJECTIVES: The objective of the timber sale is to improve wildlife habitat for game and non-game species by providing forest age structure different than surrounding areas. The objective will be accomplished by clear-cutting aspen (coppice regeneration) and oak areas with reserves.

CUTTING AREA DESCRIPTION: This tract contains 3 cutting areas with the total sale being 44 acres in size. The sale area consists mostly of Oak, Aspen, Jack Pine, and Red Maple. 41 acres of the sale area will be a coppice with Reserve trees, the remaining 3 acres will be red pine thinning.

CUTTING REQUIREMENTS/SPECIFICATIONS:
- Within the timber sale area, cut all Aspen and Red Maple greater than 1 inch DBH except those with green paint marks or red paint marks. Also all Red Pine, White Pine and White Oak shall remain uncut unless marked with orange paint.
- Whole tree utilization is not allowed. No rutting from logging equipment or trucks will be allowed. Rut damage provisions are included in the timber sale contract.
- This sale will be frozen ground only,
- Utilize all trees to a minimum 5 inch top Diameter for all species.
- All standing dead trees within 50 feet of any access road or the Sandhill fence will be cut.

ACCESS: Access to the Sale will be from Highway X utilizing the Sherwood Gate. The North Road and Sherwood Road will provide good access to the entire sale area.

OTHER SALE REQUIREMENTS AND CONDITIONS:
- The WI-DNR can restrict the type of equipment used on the job if conditions or damage warrant.
- Weight/volume conversion factors (if needed) will be those listed as Option 2 on page 12-1 of the Wisconsin DNR Timber Sale Handbook.
- BMP’s (see Field Manual PUB-FR-093-2010) are mandatory for this timber sale.
- Notify the WI-DNR at 715-884-6334 before you start the job and each time you leave or return to the job.
- Check the contract for other requirements.

ADVERTISED VALUE/ MINIMUM ACCEPTABLE BID: $8,538.00

SALE OBJECTIVE: The objective of the timber sale is to improve wildlife habitat for game and non-game species by providing forest age structure different than surrounding areas. The objective will be accomplished by clear-cutting aspen (coppice regeneration) and oak areas with reserves to create early successional habitat.

CUTTING AREA DESCRIPTION: This tract is composed of one cutting area with a total size of 29 acres. Tract is reached from the south by an access road off of West Fence Road. The sale area is primarily a mix of aspen and oak.

CUTTING REQUIREMENTS/SPECIFICATIONS:
- Within the timber sale area, cut all trees greater than 1 inch DBH except for White Oak. In addition all trees with green paint marks or red paint marks shall remain uncut and any dead tree that has punky wood and does not have commercial firewood or other forest product value shall remain uncut.
- Utilize all trees to a minimum 5 inch top diameter for all species.
- No rutting will be allowed. Rut damage provisions are included in the timber sale contract.
- Oak wilt restrictions - cutting and forwarding operations are not allowed between April 1st and July 15th.
- Due to the sale being bordered on multiple sides by marsh and multiple threatened/endangered species documented in the area all harvesting will be restricted to frozen ground conditions.

ACCESS: Sale is accessed from West Fence Road and is approximately 1/2 miles north of Ball Road.

OTHER SALE REQUIREMENTS AND CONDITIONS:
- The Wisconsin DNR may restrict the type of equipment used on the job if conditions or damage warrant.
- Weight/ Volume conversion factors (if needed) will be listed as Option 2 on page 12-1 of the Wisconsin Timber Sale Handbook. Copies are available upon request.
- BMP's (see Field Manual PUB-FR-093-2010) are mandatory for this sale.
- Notify the WI-DNR at 715-884-6334 before you start the job and each time you leave or return to the job.

SALE OBJECTIVE: The objective of the timber sale is to improve wildlife habitat for game and non-game species by providing forest age structure different than surrounding areas. The objective will be accomplished by clear-cutting aspen (coppice regeneration) and oak areas with reserves to create early successional habitat.

CUTTING AREA DESCRIPTION: This tract is composed of two cutting areas with a total combined size of 44 acres. The sale area is primarily a mix of aspen and oak with some large oak wilt pockets in the northern half.

CUTTING REQUIREMENTS/SPECIFICATIONS:
- Within the timber sale area, cut all trees greater than 1 inch DBH except for White Spruce, White Pine, Red Pine, and White Oak. In addition all trees with green paint marks or red paint marks shall remain uncut and any dead tree that has punky wood and does not have commercial firewood or other forest product value shall remain uncut.
- Utilize all trees to a minimum 5 inch top diameter for all species.
- No rutting will be allowed. Rut damage provisions are included in the timber sale contract.
- There is no seasonal oak wilt cutting restriction associated with this sale.
- Frozen conditions will not be required.

ACCESS: Tract is reached from the North using Cole Road which runs west from the northern end of West Fence Lane.

OTHER SALE REQUIREMENTS AND CONDITIONS:
- The Wisconsin DNR may restrict the type of equipment used on the job if conditions or damage warrant.
- Weight/Volume conversion factors (if needed) will be listed as Option 2 on page 12-1 of the Wisconsin Timber Sale Handbook. Copies are available upon request.
- BMP’s (see Field Manual PUB-FR-093-2010) are mandatory for this sale.
- Notify the WI-DNR at 715-884-6334 before you start the job and each time you leave or return to the job.
- Check contract for other requirements.

ADVERTISED VALUE/ MINIMUM ACCEPTABLE BID: $31,068.00

SALE OBJECTIVE: The objective of the timber sale is to regenerate jack pine and oak which are cover types beneficial to both game and non-game species found on the Meadow Valley Wildlife Area. This objective will be accomplished by clearcutting the area with some reserves so it can naturally regenerate by seed and coppice sprouting.

CUTTING AREA DESCRIPTION: This tract is composed on one cutting area with a total size of 78 acres. Tree species present include mature jack pine, oak, red maple, aspen, and white birch.

CUTTING REQUIREMENTS/ SPECIFICATIONS:
- Within the sale area, cut all trees greater than 1 inch DBH except for white oak, red pine, and white pine. In addition all trees with green or red paint marks as well as any dead tree that has punky wood and does not have commercial firewood or other forest product value shall remain uncut.
- Utilize all trees to a minimum 5 inch top diameter for all species.
- No rutting will be allowed. Rut damage provisions are included in the timber sale contract.
- Oak wilt restrictions – oak wilt is present in the sale area so all cutting and forwarding operations are not allowed between April 1st and July 15th annually.
- Due to the sale being bordered in multiple areas by marsh and multiple threatened/endangered species documented in the area all harvesting will be restricted to frozen ground conditions and prohibited any time between March 15 and November 1 annually for species avoidance.

ACCESS: Sale will be accessed by an access road to be built/improved from State Highway 173 as shown on the map.

OTHER SALE REQUIREMENTS AND CONDITIONS:
- The Wisconsin DNR may restrict the type of equipment used on the job if conditions or damage warrant.
- Weight/Volume conversion factors (if needed) will be listed as Option 2 on page 12-1 of the Wisconsin Timber Sale Handbook. Copies are available upon request.
- Water Quality BMP's (see Field Manual PUB-FR-093-2010) are mandatory for this sale.
- Notify the WI-DNR at 715-884-6334 before you start the job and each time you leave or return to the job.
- Check contract for other requirements.

ADVERTISED VALUE/ MINIMUM ACCEPTABLE BID: $22,432.00

SALE OBJECTIVES: The primary objective of this harvest is to create an oak/pine barrens community. This will be accomplished via a clear-cut with reserves. Slash will be removed from the site in order to facilitate future prescribed burning.

CUTTING AREA DESCRIPTION: This tract is located 3 miles southeast of Mather, on the east side of County Hwy H. The cutting unit is bounded by a red paint line. The red paint marks face the cutting area. Topography is flat to gently rolling. Access is very good. Frozen conditions will not be required.

CUTTING REQUIREMENTS/SPECIFICATIONS:

- Cut all trees, live or dead, that are 1 inch or larger DBH (except those marked with green paint).
  - All slash and/or tops must be removed from the timber sale site. How that is done, or what form such material is in at that time, is at the contractor's discretion. Whole tree biomass utilization will be allowed and is encouraged.
  - On any submitted bid, make sure it is clear whether you are bidding on wood to a 4" top only versus the whole tree. Bids will be evaluated on the basis of total bid, regardless of the utilization standard chosen.
  - A gravestone is present in the northern portion of the sale area (see map). A blue paint line is present around this site. No vehicles may operate within this area. In addition, any tops or slash that fall within this area must be immediately removed.
  - Do not cut any trees marked with green paint.
  - Trees marked with red paint along County Highway H shall be cut.

OTHER SALE REQUIREMENTS AND CONDITIONS:

- Seasonal Restrictions: No harvest activities will be allowed April 1 to July 15 in order to prevent the spread of Oak Wilt.
- The Wisconsin DNR may restrict the type of equipment used on the job if conditions or damage warrant.
- Weight/volume conversion factors (if needed) will be those listed as Option 2 on page 12-1 of the Wisconsin Timber Sale Handbook—copies are available upon request.
- BMP's (see Field Manual PUB-FR-093-2010) are mandatory for this sale.
- Notify the Forester at Sandhill (715-884-6334) before you start the job and each time you leave or return to the job.
- The location of all logging roads and landings must be approved by a DNR Forester.
- Check the contract for other requirements.

BID EVALUATION: Bids will be evaluated on value of estimated pulpwood tons.

ADVERTISED VALUE / MINIMUM ACCEPTABLE BID: $28,252.50

SALE OBJECTIVES: The objective of the timber sale is to improve wildlife habitat for game and non-game species by providing forest age structure different than surrounding areas. The objective will be accomplished by clear-cutting aspen (coppice regeneration) and oak areas with reserves.

CUTTING AREA DESCRIPTION: This tract contains 2 cutting areas with the total sale being 65 acres in size. The sale area consists mostly of Oak, Jack Pine, and Red Maple. The entire sale area will be a coppice with Reserve trees.

CUTTING REQUIREMENTS/SPECIFICATIONS:
- Within the timber sale area, cut all Red Maple, Jack Pine, Oak, and Aspen greater than 1 inch DBH.
- Retention trees to remain uncut include White Oak, White Pine, Tamarack, River Birch, and Red Pine not marked with orange paint. In addition all green and red marked trees or any snag tree that has punky wood and does not have commercial firewood or other forest product value
- Whole tree utilization is not allowed.
- No rutting from logging equipment or trucks will be allowed. Rut damage provisions are included in the timber sale contract.
- There is an oak wilt restriction - cutting and forwarding operations are not allowed between April 1st and July 15th.
- Care will be taken to avoid damage to White Pine regeneration throughout the sale area.
- All trees will be utilized to a minimum 5 inch top diameter.
- All trees within the road ROW of the timbersale will be cut during harvest operations.

ACCESS: There is good access to the entire sale area from Broadhead Road. There are also some existing access trails within the sale area that may be utilized during harvest operations.

OTHER SALE REQUIREMENTS AND CONDITIONS:
- The WI-DNR can restrict the type of equipment used on the job if conditions or damage warrant.
- Weight/volume conversion factors (if needed) will be those listed as Option 2 on page 12-1 of the Wisconsin DNR Timber Sale Handbook.
- BMP's (see Field Manual PUB-PR-093-2010) are mandatory for this timber sale.
- Notify the WI-DNR at 715-421-7843 before you start the job and each time you leave or return to the job.
- Check the contract for other requirements.

BID EVALUATION: Bids will be evaluated on value of estimated pulpwood tons.

ADVERTISED VALUE/MINIMUM BID: $11,233.80

SALE OBJECTIVES: The objective of the timber sale is to improve wildlife habitat for game and non-game species by providing forest age structure different than surrounding areas. The objective will be accomplished by clear-cutting ( coppice regeneration) with reserves.

CUTTING AREA DESCRIPTION: This tract contains 1 cutting area with the total sale being 39 acres. The sale area consists mostly of Oak, Jack Pine, and Red Maple. Most of the sale area will be a clear cut with Reserve trees. There are a few small pockets where the White pine were thinned to improve spacing for future growth. The entire sale area is bounded by red paint. Areas of the sale have dense White Pine regeneration. Care will be taken to avoid damage to this regeneration.

Hazards: There are power lines that run through the length of the sale area.

CUTTING REQUIREMENTS/SPECIFICATIONS:
- Within the timber sale area, cut all trees greater than 1 inch DBH except those with green paint marks or red paint marks.
- Also all Red Pine, White Pine and White Oak shall remain uncut unless marked with Orange paint.
- No rutting from logging equipment or trucks will be allowed. Rut damage provisions are included in the timber sale contract.
- Utilize all trees to a minimum 5 inch top Diameter for all species.
- No Biomass harvesting will be allowed on this sale.

ACCESS: There is good access to the entire sale area from Smith Road.

OTHER SALE REQUIREMENTS AND CONDITIONS:
- The WI-DNR can restrict the type of equipment used on the job if conditions or damage warrant.
- Weight/volume conversion factors (if needed) will be those listed as Option 2 on page 12-1 of the Wisconsin DNR Timber Sale Handbook.
- BMP's (see Field Manual PUB-PR-093-2010) are mandatory for this timber sale.
- Notify the WI-DNR at 715-884-6334 before you start the job and each time you leave or return to the job.
- Check the contract for other requirements.

Notes: Includes an estimated 730 tons of dead wood

BID EVALUATION: Bids will be evaluated on value of estimated pulpwood tons.

ADVERTISED VALUE / MINIMUM ACCEPTABLE BID: $34,451.00

SALE OBJECTIVES: The objective of this harvest is to create high quality habitat for game and non-game wildlife species by providing forest age structure different than the surrounding areas. This objective will be accomplished by clearcutting with reserves. Some trees will be retained to enhance stand diversity and to provide wildlife benefits.

CUTTING AREA DESCRIPTION: This tract consists of 2 cutting areas with a total size of 83 acres. The primary timber type is mature oak. Much of the oak has died in recent years. The tract is located on high ground. All sale boundaries are marked with red paint.

CUTTING REQUIREMENTS/SPECIFICATIONS:

- Cut all aspen, jack pine and mixed hardwoods larger than 1 inch DBH. Cut all oak, except those marked with green paint.
- No white oak, red pine, or white pine shall be cut.
- No trees marked with red or green paint shall be cut.
- Do not cut any unmerchantable snags or obvious den trees.
- There is no seasonal restriction associated with oak wilt on this sale.

ACCESS: This tract consists of 2 cutting areas and is located along an existing access road that is gated on both ends (Frost Road). Best access is off Hwy 173. Proceed through the gate (combo 0215) and 1 mile down the access road to reach the south sale area. The access road is generally located on high ground. There are short sections of the access road that are soft and may limit sale access to frozen or very dry conditions. Any improvements to this road to enhance sale access will be the responsibility of the Contractor.

OTHER SALE REQUIREMENTS AND CONDITIONS:

- The Wisconsin DNR may restrict the type of equipment used on the job if conditions or damage warrant.
- Weight/Volume conversion factors (if needed) will be listed as Option 2 on page 12-1 of the Wisconsin Timber Sale Handbook. Copies are available upon request.
- BMP’s (see Field Manual PUB-FR-093-2010) are mandatory for this sale.
- Notify the DNR forester before you start job by phone at 715-884-6334.
- Check contract for other requirements.

BID EVALUATION: Bids will be evaluated on value of estimated pulpwood tons.

ADVERTISED VALUE / MINIMUM ACCEPTABLE BID: $84,641.00

SALE OBJECTIVES: These plantations are located within an Old Forest Native Community Management Area and are being thinned in order to improve the health and vigor of the remaining trees while retaining and promoting old forest attributes.

CUTTING AREA DESCRIPTION: This tract is located between 5th Street West (West Branch Road) and the Kingston Flowage on the Meadow Valley Wildlife Area. The entire tract consists of red and white pine plantation that has been thinned previously. There is no red line around the perimeter. The boundaries of the sale include all areas containing trees marked with either orange or blue paint.

CUTTING REQUIREMENTS/SPECIFICATIONS:
- Cut and utilize all trees marked with either orange or blue paint.
- Cut all red pine and white pine less than 6 inches DBH regardless of whether marked with paint or not.
- Cut only those jack pine containing 2 or more sticks.
- Exercise caution to avoid damage to remaining trees.
- The logging contractor will be responsible for thoroughly treating all cut pine stumps with sporax or celltreat fungicide to prevent infection from Annesum Root Rot disease. Application of the fungicide is required on all pine stumps within 24 hours of cutting from April 1 through November 30.

ACCESS: Access for this sale is off 5th Street West and will utilize the existing logging/access roads shown on the attached map. The entire sale is located on high ground. Frozen conditions will not be required.

OTHER SALE REQUIREMENTS AND CONDITIONS:
- The Wisconsin DNR can restrict the type of equipment used on the job if conditions or damage warrant.
- Weight/volume conversion factors (if needed) will be those listed as Option 2 on page 12-1 of the Wisconsin Timber Sale Handbook – copies are available upon request.
- BMP’s (see Field Manual PUB-93-2010) are mandatory for this sale.
- Notify the Forester at Sandhill (715-884-6334) before you start the job.
- The location of all logging roads and landings must be approved by the DNR Forester.
- Check the contract for other requirements.
