June 16, 2017

Dear Prospective Bidders:

We invite you to submit bids on timber sales on the Kettle Moraine State Forest, Pike Lake and Loew Lake Units. We are advertising 2 sales that are briefly summarized in the table below. Sealed bids will be received by the Forester, Kettle Moraine State Forest- Pike Lake Unit, up to 12:30pm on Monday, July 10, 2017, at the DNR office at 3544 Kettle Moraine Road, Hartford, WI 53027. Bids will be opened at that time at the Pike Lake Office.

There have been some changes to the bidding process and timber contract. A bid bond is no longer required. In lieu of a bid bond, winning bidders will have 6 weeks from the date of bid opening to submit an acceptable performance bond to the department. If the winning bidder fails to execute the contract and submit an acceptable performance bond, the bidder shall be required to forfeit to the department an amount equal to 10% of the total bid amount. Failure to forfeit the 10% penalty will result in the bidder being considered ineligible to bid on any state timber sales for a two-year period.

Our tree utilization standard has changed. For several of the hardwood timber sales, the utilization requirement has been reduced from a 4-inch top to an 8-inch top. All trees designated for cutting must be felled, but those less than 8-inch DBH are not required to be utilized. Slash height must still be within 3 feet of the ground. For some of the sales, pulpwood volume estimates are to a 4-inch top. Please refer to individual sale conditions for details and keep this in mind when bidding.

A minimum bid price is no longer listed in the sale prospectus. However, a minimum bid price has been determined for each sale, and bids that do not meet the minimum will be rejected.

We look forward the bid opening and working with you in the near future.

Sincerely,

Julie Peltier
Forester, Wisconsin DNR
Julie.Peltier@Wisconsin.gov
Public Notice
Invitations for Bids on Timber Stumpage

DEPARTMENT OF NATURAL RESOURCES
KETTLE MORaine STATE FOREST – PIKE LAKE AND LOEW LAKE

Sealed bids will be received by the Forester, Kettle Moraine State Forest – Pike Lake Unit, 3544 Kettle Moraine Road, Hartford, Wisconsin, 53027 up to 12:30pm, July 10, 2017. Bids will be opened at that time at the Pike Lake Office for all timber marked or designated for cutting on the following tracts. This bid opening is for tract 1-16 at Pike Lake - KMSF and tract 1-17 at Loew Lake – KMSF.

Both tracts will be LUMP SUM sales.

Each bid shall include the following:
1) Tract Number
2) List of species to be cut and estimated volumes as listed on the timber sale prospectus
3) Bid price per unit for each species and product listed. No lump sum bids will be accepted.
4) Signature and address of bidder
5) Submit bids in individual sealed envelopes

Bids are assumed to be irrevocable offers for a period of 14 days. Bids will be accepted or rejected within 14 days at which time a contract will be drawn up and signed. Contracts will be signed within 6 weeks of bid opening.

A Performance Bond of a minimum of $1000.00 or 15% of the total bid value is required at the signing of a timber sale contract. Irrevocable Letters of Credit issued as Performance Bonds as required to be 4 ½ years in length.

Workers Compensation Insurance is required. Proof of Workers Compensation Insurance will be required before the contract is signed.

The Department of Natural Resources reserves the right to reject any or all bids.

Utilization
1) All trees designated for cutting will be utilized to an 8-inch top.
2) When designated for cutting, all trees containing one or more 100 inch pulpwood sticks will be considered merchantable.

Payment Instructions
1) A 50% payment is required prior to cutting with the remaining 50% to be paid when the administrating forester determines 50% of the area has been harvested.
**Contract Period**

1) All tracts have a contract period of two years/

2) Contract extensions will not be granted without a reasonable justification. If extended, stumpage prices will increased by 5%. For each additional extension, the stumpage will be increased by 10%. Extensions are for 6 months.

3) Each of the sales has a unique harvesting period that balances protection of endangered species (nesting bird periods), forest health concerns (invasive plant spread, oak wilt), and recreational uses. Please note the timber periods for each sale in the Special Conditions (Attachment D) under Special Operating Requirements.

**Special Provisions: General**

1) The locations, building and maintenance of landings, roads and accesses are the full responsibility of the purchaser and are always subject to advance approval and under the conditions of the seller. Forester must be contacted at least 48 hours prior to construction of a landing, road or access. County and town access permits are the purchaser's responsibility.

2) Roads and landings shall be graded and leveled or closed out to the satisfaction of the seller upon completion of timber sales. Any accesses developed across ditches will be restored to their original condition.

3) No wood piles may be left on the landing for more than 30 days without the advance approval of the seller.

4) Slash must be scattered evenly across sale area and lie within three (3) feet of the ground.

5) When accessing town roads or highways from an access or landing, signage will be required to indicate trucks entering roadway.

**Special Provisions: Trails**

1) Purchaser should be aware on some of these sales of the various recreational trail uses, such as hiking, biking, horseback riding and snowmobiling. Purchaser will extend right of way to trail users and pull to side of trails, idle equipment and suspend operations until trail users pass by a distance of 100'.

2) Sales may be delayed if interference becomes excessive with recreational trails and users.

3) Signage will be provided by purchaser and established at edges of sale area on trails indicating: *Timber Sale Area Ahead* (minimum two inch lettering).

4) All crossings of trails will be minimized and crossed perpendicular to the trail surface. Unless identified the trails will not be used for skidding or hauling.

5) Slash must be removed daily from trail surfaces. All slash shall be pulled back a minimum of 15 feet from the trail edge prior to completing individual stands.

6) All ruts created on recreational trail surfaces shall be repaired daily to the satisfaction of the seller.
Special Conditions: Invasive Plants
Off-road logging equipment shall be free of concentrations of plant material and soil prior to entering the sale area. Purchaser will contact forester 48 hours prior to delivering equipment to the sale area to arrange for an on-site inspection.

Certification
The Kettle Moraine State Forest is certified under both Forest Stewardship Council (FSC)-Certificate #SCS-FN/COC-00070N and Sustainable Forestry Initiative (SFI)-Certificate # NSF-SFIS-1Y941-S1 and requires the actual logging contractor to be trained to the SFI training standard.

Contracts may not be assigned
A sample copy of the timber Sale Contract may be requested.
Bid Forms (2400-49) are enclosed. Please make copies if you need more.

The terms and conditions of this prospectus shall be considered to be part of the contract.

Any questions should be directed to Julie Peltier, Forester at 262-670-3404.

Sale Type: This is a lump sum sale.

Bidding Instructions
1) Bid bond not required. Winning bidders will have 6 weeks from the date of the bid opening to submit an acceptable performance bond to the department. If the winning bidder fails to execute the contract and submit an acceptable performance bond, the bidder shall be required to forfeit to the department an amount equal to 10% of the total bid amount. Failure to forfeit the 10% penalty will result in the bidder being considered ineligible to bid on any state timber sales for a two-year period.
2) The sale has an unadvertised minimum sale value. Any bids that do not meet the total minimum sale value will be rejected.

Sale Access and Landings
There is good access to this sale from a variety of points and adequate decking areas. Recreational trails may be used for skidding and hauling with prior approval. The Ice Age Trail cannot be used. Landing sites may be located at campground entrance, nature trail parking lot or snowmobile trail if there is no snow.
Purpose of Sale
The sale is a removal of ash, aspen and other trees that could be hazardous to the public using the property. Emerald ash borer (EAB) has been found on the property. The campground area is of special concern with the ash being infested with EAB.

General Cutting Requirements
1) Recreational trails may be used, at agreed upon locations, as skid/haul trails during operations. Trails will be crossed at limited locations. Any debris entering trail area within 15 feet of trail surface shall be removed immediately.
2) If trails are damaged, purchaser will restore trail to pre-sale or better condition.
3) Logging operations can only occur during dry or frozen soil conditions.

Cordwood Utilizations Requirements
1) Trees and top-wood are required to be utilized to an 8-inch diameter.
2) Utilization of trees and top-wood less than 8 inches in diameter is at the discretion of the contractor.

Contractor and Equipment Operator Requirements
1) Pre-sale walkthrough is required before starting logging activities.
2) Prior to commencement of any work under this Contract and during the period of the Contract, the Purchaser shall provide proof of insurance coverage for all forest workers required by this Contract on an original Certificate of Insurance, countersigned by an insurer licensed to do business in Wisconsin naming the Seller as a Certificate Holder.
3) Personal vehicles are not allowed on trails, unless otherwise agreed upon by the Forester and Logger.
4) The Department reserves the right to deny subcontractors used in the performance of this contract based on past performance on county, state or federal timber sales, civil or criminal timber theft citations, or when doing so would be in the best interest of the citizens of Wisconsin as determined by the seller.

Special Operating Requirements
1) Recreational trails may be used, at agreed upon locations, as skid/haul trails during operations. Trails will be crossed at limited locations. Any debris entering trail area within 15 feet of trail surface shall be removed immediately.
2) If trails are damaged, purchaser will restore trail to pre-sale or better condition.
3) Logging operations can only occur during dry or frozen soil conditions.
4) Damage to electrical pedestals or camping pads in campground is not acceptable.

Payment Instructions
1) A 50% advanced stumpage payment is required prior to cutting.
2) A 50% advanced stumpage payment is required when the administrating forester determines ½ of the sale area is harvested.
Contract Period
1) This is a contract period of two (2) years. Contract will be signed within six (6) weeks of bid opening.
2) Contract extensions will not be granted without reasonable justification.

Special Conditions: Trails
1) The purchaser will extend the right of way to trail users by bringing equipment to an idle and suspending operations until trail users pass by a distance of 100 feet.
2) Sales may be delayed if interference becomes excessive with recreational trail users.
3) Signage will be provided by purchaser and established at edges of sale area on trails indicating: Timber Sale Area Ahead (minimum two inch lettering).
4) All crossing of trails will be minimized and crossed perpendicular to the trail surface. Unless authorized, the trails will not be used for skidding or hauling.
5) Slash must be removed daily from trail surfaces. All slash shall be pulled back a minimum of 15 feet from the trail edge prior to completing individual stands.
6) All ruts created on recreational trail surfaces shall be repaired daily to the satisfaction of the Seller.

Special Conditions: Invasive Plants
1) Off-road logging equipment shall be free of concentrations of plant material and soil prior to entering the sale area. The Purchaser will contact the Forester 48 hours prior to delivering equipment to the sale area to arrange for an on-site inspector.

Special Conditions: Forest Health
1) The sale area is located in Washington County and is in the emerald ash borer (EAB) quarantine zone. Within quarantine counties it is recommended that logging activities involving ash harvest occur between October 1st and March 31st. The logger should be aware of and comply with relevant EAB quarantine regulations.

Special Conditions: General
1) The locations, building and maintenance of landings, roads and accesses are the full responsibility of the Purchaser and are always subject to advance approval and under the conditions of the seller. The Forester must be contacted at least 48 hours prior to construction of a landing, road or access.
2) Roads and landings shall be graded and leveled or closed out to the satisfaction of the Seller upon completion of timber sales. Any accesses developed across ditches will be restored to their original condition.
3) Trees not designated for harvest shall not be cut without specific authorization form the Department. Any trees cut without prior approval will subject the contractor to penalties and fines.
4) Damage to electrical pedestals and camping pads will be Not acceptable. If damage is done, purchaser will repair to pre-sale conditions.
5) No wood piles may be left on the landing for more than 30 days without advance approval of the Seller.

6) All spring poles (saplings tipped over from equipment) will be cut at the base.

7) When accessing town roads or highways form a new access or landing, signage will be required to indicate trucks entering roadway.

8) Rutting will be monitored and if soil disturbances are considered to be excessive based on the chart below, the contractor will be required to repair or mitigate them.

<table>
<thead>
<tr>
<th>Timber Sale Infrastructure</th>
<th>Soil disturbances are excessive if:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Roads, Landings, Skid Trails, and General Harvest Area</td>
<td>• A gully or rut is 6 inches deep or more and is resulting in channelized flow to a wetland, stream, or lake.</td>
</tr>
<tr>
<td>Roads, Landings, and Primary Skid Trails</td>
<td>• In a riparian management zone (RMZ) or wetland, a gully or rut is 6 inches deep or more and 100 feet long or more.</td>
</tr>
<tr>
<td>Secondary Skid Trails and General Harvest Area</td>
<td>• In an upland area (outside of RMZ), a gully or rut is 10 inches deep or more and 66 feet long or more.</td>
</tr>
<tr>
<td>Secondary Skid Trails and General Harvest Area</td>
<td>• A gully or rut is 6 inches deep or more and 100 feet long or more.</td>
</tr>
</tbody>
</table>

*Note: The depth is to be measured from the original soil surface to the bottom of the depression. If individual log depressions are visible, the depth would be measured to the lesser of the two depths (the "top" of the lug). The length is measured from the start of the "too deep" section to the end of the "too deep" section. Measurements are not cumulative.*

**Special Conditions: Course Woody Debris**

1) Existing snags and downed course woody debris will not be utilized and care should be taken to avoid damage with logging equipment.

**Special Conditions: Training**

1) To promote maximum benefit to the environment, the health and welfare of our logging contractors and to adhere to requirements of forest certification standards, effective 1/1/2006 the State of Wisconsin will require training of its logging contractors. Successful purchasers of Kettle Moraine State Forest stumpage will need to ensure that the actual logging contractor complies with the Wisconsin Sustainable Forestry Initiative (SFI) Training Standard as adopted by the Wisconsin SFI Implementation Committee (SIC). Criteria for the standard can be found at the website [www.fistausa.org/sfi_standards](http://www.fistausa.org/sfi_standards) or by contacting the Forest Industry Safety and Training Alliance (FISTA). FISTA can provide documentation to the contractor confirming completion of the training standard. This will be required prior to starting sale (contract signing).

Sale Type: This is a lump sum sale.

Bidding Instructions

1) Bid bond not required. Winning bidders will have 6 weeks from the date of the bid opening to submit an acceptable performance bond to the department. If the winning bidder fails to execute the contract and submit an acceptable performance bond, the bidder shall be required to forfeit to the department an amount equal to 10% of the total bid amount. Failure to forfeit the 10% penalty will result in the bidder being considered ineligible to bid on any state timber sales for a two-year period.

2) The sale has an unadvertised minimum sale value. Any bids that do not meet the total minimum sale value will be rejected.
Sale Access and Landings
There is good access to this sale from a variety of points and adequate decking areas. An old trail at the base of the slope could be used as a skid trail. Landing sites include near the Emerald Drive parking lot, possibly near the conifer plantation on top of the hill along Emerald Drive and adjacent to the DNR cabin (Thompson cabin) on St. Augustine Road.

Purpose of Sale
The sale area is a northern hardwood type dominated by shade tolerant sugar maple, white ash and basswood. Other hardwoods species are present as well, but the northern hardwoods dominate. The management objective is to maintain the area as a northern hardwood type, with the goal of this harvest being to promote good growing conditions for the desirable hardwoods and encourage good regeneration of the desirable species. To accomplish this, the prescription is to perform a selection harvest that will reduce the stocking to a more appropriate level, promote the all-aged nature of the northern hardwood type and to cut out less or undesirable species from the sale area. With emerald ash borer (EAB) being a present pest, most of the ash is being cut from the area to allow other tree species to prosper. Included in the sale are a couple of pockets of aspen that will be clearcut as a part of the harvest, allowing for aspen suckering to occur in the area. Hardwood in-growth into these pockets is acceptable if it is a desirable species.

General Cutting Requirements
Cordwood Utilizations Requirements
1) Trees and top-wood are required to be utilized to an 8-inch diameter.
2) Utilization of trees and top-wood less than 8 inches in diameter is at the discretion of the contractor.

Contractor and Equipment Operator Requirements
1) Pre-sale walkthrough is required before starting logging activities.
2) Prior to commencement of any work under this Contract and during the period of the Contract, the Purchaser shall provide proof of insurance coverage for all forest workers required by this Contract on an original Certificate of Insurance, countersigned by an insurer licensed to do business in Wisconsin naming the Seller as a Certificate Holder.
3) Personal vehicles are not allowed on trails, unless otherwise agreed upon by the Forester and Logger.
4) The Department reserves the right to deny subcontractors used in the performance of this contract based on past performance on county, state or federal timber sales, civil or criminal timber theft citations, or when doing so would be in the best interest of the citizens of Wisconsin as determined by the seller.

Special Operating Requirements
1) Trails will be crossed at limited locations. Any debris entering trail area within 15 feet of trail surface shall be removed immediately.
2) If trails are damaged, purchaser will restore trail to pre-sale or better condition.
3) Logging operations can only occur during dry or frozen soil conditions.
Payment Instructions (Lump Sum Sale)
1) A 50% advanced stumpage payment is required prior to cutting.
2) A 50% advanced stumpage payment is required when the administrating forester determines ½ of sale area is harvested.

Contract Period
1) This is a contract period of two (2) years. Contract will be signed within six (6) weeks of bid opening.
2) Contract extensions will not be granted without reasonable justification.

Special Conditions: Trails
1) The purchaser will extend the right of way to trail users by bringing equipment to an idle and suspending operations until trail users pass by a distance of 100 feet.
2) Sales may be delayed if interference becomes excessive with recreational trail users.
3) Signage will be provided by purchaser and established at edges of sale area on trails indicating: Timber Sale Area Ahead (minimum two inch lettering).
4) All crossing of trails will be minimized and crossed perpendicular to the trail surface. Unless authorized, the trails will not be used for skidding or hauling.
5) Slash must be removed daily from trail surfaces. All slash shall be pulled back a minimum of 15 feet from the trail edge prior to completing individual stands.
6) All ruts created on recreational trail surfaces shall be repaired daily to the satisfaction of the Seller.

Special Conditions: Invasive Plants
1) Off-road logging equipment shall be free of concentrations of plant material and soil prior to entering the sale area. The Purchaser will contact the Forester 48 hours prior to delivering equipment to the sale area to arrange for an on-site inspection.

Special Conditions: Forest Health
1) The sale area is located in Washington County and is in the emerald ash borer (EAB) quarantine zone. Within quarantine counties it is recommended that logging activities involving ash harvest occur between October 1st and March 31st. The logger should be aware of and comply with relevant EAB quarantine regulations.

Special Conditions: General
1) The locations, building and maintenance of landings, roads and accesses are the full responsibility of the Purchaser and are always subject to advance approval and under the conditions of the seller. The Forester must be contacted at least 48 hours prior to construction of a landing, road or access.
2) Roads and landings shall be graded and leveled or closed out to the satisfaction of the Seller upon completion of timber sales. Any accesses developed across ditches will be restored to their original condition.
3) Trees not designated for harvest shall not be cut without specific authorization from the Department. Any trees cut without prior approval will subject the contractor to penalties and fines.

4) No wood piles may be left on the landing for more than 30 days without advance approval from the Seller.

5) All spring poles (Saplings tipped over from equipment) will be cut at the base.

6) When accessing town roads or highways form a new access or landing, signage will be required to indicate trucks entering roadway.

7) Rutting will be monitored and if soil disturbances are considered to be excessive based on the chart below, the contractor will be required to repair or mitigate them.

The award shall be based on this TOTAL BID AMOUNT:

### Performance Bond

Will be in the form of: (select one)

- Cash
- Assurance Bond
- Personal Check
- Certificate of Deposit
- Certified Check/Money Order
- Assignment of Savings Account
- Irrevocable Letter of Credit

I understand that any or all bids may be rejected and that consideration and awarding of a contract will be based upon my past performance and ability to complete contracts. I also understand that if I am the winning bidder, I have 6 weeks from the date of the bid opening to submit an acceptable performance bond. I also understand that if I am awarded the contract and fail to execute it or work under it, I will be required to forfeit to the Department an amount equal to 10% of my total bid amount. Failure to forfeit the 10% penalty will result in being considered ineligible to bid on any state timber sales for a two-year duration. In the event the highest bidder can not or will not sign the contract, the award will be made to the next highest qualified bid.

**Notice:** I understand:

- Utilization specifications and estimated volumes are listed in the prospectus which is available upon request from the Department.
- A copy of the standard timber sales contract which must be entered into is available upon request from the Department.
