2019 known native plant sales in Wisconsin

May is planting time and adding even a few native plants to your property can help increase wildlife habitat. Options for buying native plants in 2019 include the growing number of [Wisconsin native plant nurseries](#) and native plant sales put on by conservation organizations and nature centers. Even adding a few native plants can help beautify your yard while providing food and shelter to wildlife including birds, bees, butterflies, and other insects and pollinators.

These are the native plant sales we know about that are sponsored by nature centers and conservation organizations. [The University of Wisconsin-Extension Master Gardener Program offers plant sales](#), some of which feature native plants. Check individual event listings to see if native plants are available.
