

**Notice:** Provide information requested to order a copy(ies) of "A Field Guide to Terrestrial Invasive Plants in Wisconsin". The Department cannot fill your order unless you provide complete information and payment. Personally identifiable information will be used for program administration and may be made available to requesters under the Wisconsin's Open Records law [ss. 19.31 – 19.39, Wis. Stats.]

**A Field Guide to Terrestrial Invasive Plants in Wisconsin DNR**

Chapter NR 40 was created to provide Wisconsin a means to identify, classify and control invasive species. The guide includes photos, descriptions, and control methods of all listed terrestrial plants as well as other known invaders. Best management practices are also included in this pocket-sized guide, along with more information about Chapter NR 40 and what you can do to report occurrences of regulated species. **A wetland supplement is available** to complete the guide, including pictures, descriptions, and control methods of listed and unlisted invasive wetland plants. The supplement includes an updated cover, table of contents, and additional pages for you to insert. Proceeds from the sale of this guide will be used to publish additional copies to have available to the public. We hope this guide will help increase your knowledge of invasive plants. Note- The wetland supplement needs to be added to the other guide rather than used alone

\*Price per guide varies by quantity ordered\*

Guide cost		Supplement	Shipping charges		
# of copies	Price per guide	Price each	Guide Only	Supplement Only	Both
