

# Help Out on State Natural Areas

## Ridgeway Pine Relict Workday

**Join in!** Ridgeway is known for its pine relicts that have northern plant species. The workday this month will focus on spraying or pulling garlic mustard. This plant crowds out native woodland and savanna plants so help us keep the numbers down! No skills needed you will be trained onsite.

**Date:** May 10

**Time:** 9am-noon

**Directions:** From the intersection of County HHH and H in Ridgeway, go north on H about 0.6 miles to an overgrown access lane on the west side of the highway and just north of the farmstead. The access is marked with a sign. [Google map.](#)

**What to wear:** Dress for the weather and wear clothes that are OK to get beat up.

**What to bring:** Leather gloves, drinking water, loppers, we will have some extra equipment available for volunteers to use.

**Contact, RSVP:** If you plan to come please contact Mary Kay Baum at [marykbaum@gmail.com](mailto:marykbaum@gmail.com) or (608) 935-5834.
