Public Comment on the Draft Master Plan for the Sauk Prairie Recreation Area

I am writing to support the WDNR’s proposals for ecological restoration, habitat management and quiet nature-based recreation on the former Badger Ammo lands but do NOT support proposed on/off-road motorcycles, high power rocketry and a future gun range because: Noise will ruin the area for both the people trying to enjoy a quiet place to spend time and for the animals & birds that we hope will return & stay in the restored land. Also: The bigger the restored area, the more species will be there. If it is cut up for different activities, the purpose is ruined or at least, significantly diminished & fewer species will find it attractive.

Public Comment on the Draft Master Plan for the Sauk Prairie Recreation Area

I am writing to support the WDNR's proposals for ecological restoration, habitat management and quiet nature-based recreation on the former Badger Ammo lands but do NOT support proposed on/off-road motorcycles, high power rocketry and a future gun range because:

The motorcycles and rocketry and guns are antithetical to the restoration efforts that have begun the pristine Wisconsin seems to have plenty of natural areas that are predominately woods but to our knowledge there are few areas where grasslands predominate. We would love to drive up to the Sauk Prairie Recreation Area for hikes of 2-4 hours duration, but we won't drive up if there is a chance that a hike in the grasslands would be marred by the high pitched whine of racing motorcycles or the distant boom of firing weapons.

Sincerely, Marshall and Marilyn Brinkman
