Public Comment on the Draft Master Plan for the Sauk Prairie Recreation Area

I am writing to support the WDNR's proposals for ecological restoration, habitat management and quiet nature-based recreation on the former Badger Ammo lands but do NOT support proposed on/off-road motorcycles, high power rocketry and a future gun range because: allowing motorcycles and rockets would be a sacrifice and disrupt this ideal. They would not only be insensitive to the wild feel of the area, they would directly contradict the Badger Recreation Plan which states that uses in Badger should be low impact in nature ... and have no detrimental impact on the cultural and natural features of the property.

Sincerely,

I am writing to support the WDNR's proposals for ecological restoration, habitat management and quiet nature-based recreation on the former Badger Ammo lands but do NOT support proposed on/off-road motorcycles, high power rocketry and a future gun range because: I support quiet non-motorized activity & feel it is most in line with the goals of conservation & minimal impact on the natural prairie environment & habitat. It would seem horseback riding could be considered as well as hiking, biking, X-C ski, etc.
