The Ecological Landscapes of Wisconsin

An Assessment of Ecological Resources and a Guide to Planning Sustainable Management

Wisconsin Department of Natural Resources
Where to Find the Publication

The Ecological Landscapes of Wisconsin publication is available online, in CD format, and in limited quantities as a hard copy. Individual chapters are available for download in PDF format through the DNR website (http://dnr.wi.gov/, keyword “landscapes”). The introductory chapters (Part 1) and supporting materials (Part 3) should be downloaded along with individual ecological landscape chapters in Part 2 to aid in understanding and using the ecological landscape chapters. In addition to containing the full chapter of each ecological landscape, the website highlights key information such as the ecological landscape at a glance, Species of Greatest Conservation Need, natural community management opportunities, general management opportunities, and ecological landscape and Landtype Association maps (Appendix K of each ecological landscape chapter). These web pages are meant to be dynamic and were designed to work in close association with materials from the Wisconsin Wildlife Action Plan as well as with information on Wisconsin’s natural communities from the Wisconsin Natural Heritage Inventory Program.

If you have a need for a CD or paper copy of this book, you may request one from Dreux Watermolen, Wisconsin Department of Natural Resources, P.O. Box 7921, Madison, WI 53707.

Funding

Funding for this project and publication of this report was provided by the Wisconsin Department of Natural Resources Divisions of Forestry, Lands, and Enforcement and Science; by grants from the Wisconsin Wildlife Action Plan Fund; and in part by funds from the Federal Aid to Wildlife Restoration Act under Pittman-Robertson Project W-160-P.

An Assessment of Ecological Resources and a Guide to Planning Sustainable Management
Authors

Jerry Bartelt, Science Services (retired). Prepared the fauna, climate, integrated opportunities, and some of the natural and human disturbance sections of the ecological landscape chapters, parts of Chapters 1–6, reviewed and edited the document, and coordinated the peer review and overall project.

Owen Boyle, Natural Heritage Conservation. Assisted with the preparation of ecological landscape chapters, reviewed and edited portions of the document, and provided administrative support.

Eric Epstein, Natural Heritage Conservation (retired). Prepared the flora, natural communities, and management opportunities sections in the ecological landscape chapters and parts of Chapters 1–6, prepared Chapter 7, “Natural Communities, Aquatic Features, and Selected Habitats of Wisconsin,” reviewed and edited the document, located and placed the photos in the publication, and prepared photo captions.

Vern Everson, Forestry (retired). Prepared the socio-economic sections of the publication.

Drew Feldkirchner, Natural Heritage Conservation. Prepared the section on conservation design in Chapter 1 and the assessment of northern forest communities in Chapter 2, reviewed and edited text, provided graphics, and assisted in finding and providing photos to illustrate the publication.

Colleen Matula, Forestry – Northern Region. Prepared invasive species and natural and human disturbance sections for some ecological landscape chapters.

Eunice Padley, Forestry and Science Services (now at Natural Resources Conservation Service, Washington D.C.). Prepared the physical environment and some of the natural and human disturbance sections in the ecological landscape chapters and prepared the “Changes during the Holocene” section in Chapter 4 as well as reviewed and edited much of the document.

Jeff Schimpff, Environmental Analysis and Sustainability (retired). Prepared the sections on hydrology and aquatic fauna in the ecological landscape chapters and the aquatic and wetland sections in Chapters 2–6 as well as researched aquatic resources topics and solicited input from the various Wisconsin DNR water-related programs.

Andy Stoltman, Forestry. Prepared the sections on vegetation and land cover and the American Indian sections in the ecological landscape chapters, did the cartography, and conducted data analyses for the publication.
