Top Five Counties

Rank	County
1.	Grant
2.	Dane
3.	Lafayette
4.	Manitowoc
5.	Dodge

The Cost of Free Ag Plastics Collections

- 4,400+ Dumpsters
- Fleet of Front Load Collection Trucks
- Fleet of Semis with Walking Floor Trailers
- Fleet of Duallys with 35' Gooseneck Trailers and Skid steers
- HQ/Baling located in Madison, WI with regional operations in Appleton, WI and Winona, MN

\$20,000,000 Invested by Revolution Plastics

Costly Challenges with Participation and Compliance

- Excessive amounts of dirt and feed in dumpster – Over 1,000,000 pounds in 2018
- Dead calves, tires, and other contaminants placed in dumpsters
- Less than 50% of top plastic producing farms in the state of WI are participating in program
- Plastic burning laws not enforced and Ag plastic still allowed in WI landfills
- No incentive for famers to participate or comply

Working together for a sustainable program

- Work together to improve qualified farm participation
- Work together to remove dirt, tires, and other contaminants from the program
- Enforce burning laws
- Ban Ag Plastics from WI landfills
- Work together to obtain ongoing funding to ensure the program is sustainable - \$50 per month per farm

FAKE NEWS

Thank you!
