

Wisconsin's Nutrient Reduction Strategy 2015 — 2016

Implementation Progress

June 2017
EGAD # 3200-2017-25
Environmental Management
Wisconsin DNR

The original Nutrient Reduction Strategy (2013) was developed by the Department of Natural Resources with contractual assistance from the University of Wisconsin – Extension. This Implementation Progress document follows the original with detailed information on progress achieved since the publication of the original work. Substantial input from DNR staff and individuals in federal, state and local agencies was provided both for the original and this Implementation Progress Report. To keep the document to a reasonable size, programs and activities are not described in detail. For more information, the reader is encouraged to go to websites identified in the text.

This document is available electronically on the DNR's website. The Wisconsin Department of Natural Resources provides equal opportunity in its employment, programs, services, and functions under an Affirmative Action Plan.

If you have any questions, please write to Equal Opportunity Office, Department of the Interior, Washington, D.C. 20240. This publication is available in alternate format (large print, Braille, audio tape, etc.) upon request. Please call 608-267-7694 for more information.
