Subject: Notification of Variance to NR 812 for Water Supply Well (PW-32)
Located at 8010 Olson Drive, Eau Claire, WI

Advanced Disposal Service's (Advanced Disposal) Seven Mile Creek Landfill is transmitting this letter regarding the water supply well located at the above referenced address. Advanced Disposal is currently proposing a vertical and horizontal expansion to the landfill (i.e. raising the height and expanding the footprint of the existing landfill). Your well is located within 1,200 feet of the existing landfill.

The purpose of this letter is to notify you that Wisconsin Administrative Code (WAC) NR 812 restricts wells from being located within 1,200 feet of the landfill unless a variance is granted by the Wisconsin Department of Natural Resources (WDNR). The WDNR has previously granted a variance for your well. Therefore, no further action is necessary for the current Expansion.

If you have any questions regarding this letter, please contact me at 800-839-9553.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Mark Vinall', with a long horizontal stroke extending to the right.

**Subject: Notification of Request for Variance to NR 812 for Water Supply Well (PW-33)
Located at 8202 Olson Drive, Eau Claire, WI**

Dear Mr. Samens:

Advanced Disposal Service's (Advanced Disposal) Seven Mile Creek Landfill is transmitting this letter regarding the water supply well located at the above referenced address. The purpose of this letter is to notify you that a variance to Wisconsin Administrative Code (WAC) NR 812 is being requested from the Wisconsin Department of Natural Resources (WDNR) for your water supply well. Advanced Disposal is currently proposing a vertical and horizontal expansion to the landfill (i.e. raising the height and expanding the footprint of the existing landfill). Your well is located within 1,200 feet of the proposed landfill expansion.

WAC NR 812 restricts wells from being located within 1,200 feet of the landfill unless a variance is granted by the WDNR. A variance is justified for this well due to it being located hydraulically upgradient of the landfill. The WDNR has requested that a variance application form be transmitted to the WDNR for the current Expansion. The application will be transmitted in a separate submittal to the WDNR at a later date.

If you have any questions regarding this letter, please contact me at 800-839-9553.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Mark Vinall'.
