

Preliminary 9-Day Gun Deer Season Comparison, 2017 vs. 2018

This is a comparison of 2017 and 2018 9-day deer registration data by deer management zone (DMZ), deer management unit (DMU), and deer type (antlered versus antlerless). The comparison includes deer killed with a gun during the 9-day gun deer hunting season; no crossbow or archery harvest are included. Deer harvested with deer damage tags, Deer Management Assistance Program antlerless tags, CWD Surveillance tags and other types of special permit are included. **Please note that DMU boundaries changed in 4 units (highlighted in green below). This likely accounts for some of the differences in harvest between 2017 and 2018 in the affected DMUs.**

If you have further questions about this data, please contact Anna Brose, Assistant Deer and Elk Ecologist, at 608-264-6023 or anna.brose@wisconsin.gov
