Monitoring Results

Number of mussels found: # on Top side of Plates:
# on Bottom side of Plates:
Total:
Size of the largest mussel:
Size of the smallest mussel:

If greater than 20 mussels are found measure 20 mussels chosen randomly from the sample. If less than 20 mussels are found measure all mussels found. Report results in table given at the end of this manual.

The reason I pulled samples is the flowage is dropping rapidly, with hardly any access left. Samplers were close to becoming dry.
