Subject: Zbra Mussels in Long Lake on Spread Eagle Chain of Lakes in Florence County
Date: Monday, October 06, 2014 1:57:40 PM
Importance: High

I just wanted to report that we found Zebra Mussels last weekend when we pulled our boat docking station out for the winter.

They were all along the bottom edge of a horizontal metal bar which stands about 4 inches off the bottom.

Our cabin is on the west side of the lake.

Thanks,

Dave
