Date and Time of Monitoring		
Start Date	Start Time	
		Note - one observer indicated 3/14/99 while the other reported 3/31/99. I am wondering if the 2nd should have been 4/3" + was transposed.
Start Date = Date you observed "Ice Off" <i>See below</i>		
Monitoring Results		
"Ice Off" = The lake is considered thawed when it is possible to boat from any shore to the deepest part of the lake without encountering ice.		
If you or past observers on your lake have always used another method to judge ice-on and ice-off, please describe the method		
Date First "Ice Off" (When lake was first observed to be open in the spring)		
Ice Duration (Total number of days frozen) [provide only if lake was observed daily]		
Comments		
Compiled from records of 2 lake residents. Now that I live on the lake (and they are both snowbirds) I will be recording the I/O/E/I/N/OUT for the future from the South shore. Elynn Dercks
