

Instructions: Bold fields must be completed.

Location Name	WBIC	County	Date(s)	AIS sign?	Secchi (m)	Conductivity (µmhos/cm)	Collector(s)	Start Time	End Time	Total Hours (hrs x # ppl)
Photogenic	0703500	Sauk	7-3-15	Y	6	69	Alex Mark	1000	1300	6

STEP 1: Circle species that you looked for and review the Identification Handout.

AQUATIC PLANTS/ALGAE	Hydrilla	Water hyacinth	Water chestnut	PURPLE LOOSESTRIFE	INVERTEBRATES	Other
European frogbit	Curly leaf pondweed	Water lettuce	RIPARIAN PLANTS	Zebra/quagga mussels	Chinese/Banded mystery snails	(please specify)
Yellow floating heart	Fanwort	Eurasian water milfoil	Flowering rush	Asian clam	Rusty/red swamp crayfish	
Brazilian waterweed	Potamogeton	Didymo	Phragmites	New Zealand mudsnails	Spiny fishhook waterflea	

STEP 2: Record locations of sampling sites (in decimal degrees). Indicate whether snorkeled or why not. List AIS found and density at each site or record none. Collect a sample of any new AIS found. Collect five new invasive plant specimens, 20 Dreissenids, and up to 3 of each invertebrate species. Include internal and external labels with WBIC, name of lake, county, sample date, sample type (snails, spiny water flea or zebra mussel) and collector. Legibility is appreciated. If needed, preserve with adequate ethanol.

Site*	Latitude	Longitude	Snorkel (Y/N)	If no, indicate why†	Species name, density (1-5)‡, and live (L) or dead (D)§	Sample (Y/N)	Photo (Y/N)	No AIS	Comments
B-1	46.1011	-91.5744	N	DAM					
B-2	46.13013	-91.55781	N	DAM	CLP-3 Live	Y		X	
TS-1	46.1040	-91.5181						X	
TS-2	46.1090	-91.5312						X	
TS-3	46.1202	-91.5369						X	
TS-4	46.1181	-91.5427						X	
TS-5	46.1264	-91.5530						X	

\*boat landing (BL), target site (TS), meander survey (MS).

†Stained water, turbid water, blue-green bloom, chemical treatment, other (please describe).

‡Density ratings: 1-a few plants or invertebrates, 2-one or a few plant beds or colonies of invertebrates, 3-many small beds or scattered plants or colonies of invertebrates, 4-dense plant, snail, or mussel growth in a while bay or portion of the lake, or 5-dense plant, snail or mussel growth covering most shallow areas.

§Live (L) animals will contain flesh and live plants will generally be rooted. Dead (D) animals will not contain flesh and dead plants include sterile fragments.

fibbon rich nodos, bullrush

**STEP 3:** Collect Waterflea Tows from the deep hole (DH). Decant water and preserve the sample. Preserve with 4 parts ethanol and 1 part sample. Submit the sample, a completed copy of this data form, and a completed copy of the Water Flea Tow Monitoring Report (3200-128) to DNR Science Services. Legibility is appreciated.

Latitude	Longitude	Method*	Netring depth (m)	Net diameter†	Ethanol‡	Samples combined (Y or N)	Date sent
46.1159	-91.5423	Obliq	0.5	50cm	Y	Y	
46.1148	-91.5407	↓	↓	↓	↓	↓	
46.1120	-91.5373	↓	↓	↓	↓	↓	

**STEP 4:** Collect vertical Veiger Tows from 3 sites; the deep hole (DH) and two other deep areas along the downwind side of the lake. Preserve with 4 parts ethanol and 1 part sample. Submit the sample, a copy of this completed data form, and a completed copy of the Mussel Veiger Tow Monitoring Report (3200-135) to DNR Science Service. Legibility is appreciated.

Latitude	Longitude	Netring depth (m)	Net diameter†	Ethanol‡	Samples combined (Y or N)	Date sent

\*Horizontal, oblique, or vertical.  
†30 or 50 cm.

‡Non-denatured or denatured ethanol.

**STEP 5:** Coordinate voucher and sample submission and verification with regional DNR staff for all AIS records for the specific region.

- Plants will be compiled and entered into a spreadsheet to be verified and submitted to a herbarium by an in-person appointment. Please indicate which herbarium: Freckmann Herbarium, Wisconsin State Herbarium, Other \_\_\_\_\_ Date of herbarium meeting \_\_\_\_\_
- Snails will be compiled with other regional snail specimens and sent to UW La Crosse. Date sent \_\_\_\_\_
- Dreissenids will be sent to Science Services. Date sent \_\_\_\_\_
- Crayfish compiled and sent to: Craig Roesler or Scott VanEgeren. Date \_\_\_\_\_

**STEP 6:** Data was entered into SWIMS on 8-7-2015 by Rachel Peacher  
Once data is entered, send scans of data sheets to central office ([Maureen.Ferry@Wisconsin.gov](mailto:Maureen.Ferry@Wisconsin.gov) and [Amanda.Perdzock@Wisconsin.gov](mailto:Amanda.Perdzock@Wisconsin.gov)).  
**STEP 7:** Data was proofed on \_\_\_\_\_ by \_\_\_\_\_

**Notes:**
