*Density Ratings 1: A few individuals (1-25) 2: Many small, scattered populations (25 - 500) 3: Dense population (> 500)

No target species were observed

Other Observations/Notes:

I collected a sample of a plant, that while I think is native, is almost to the point of being an invasive. It is the dominant species on both sides of the highway. It occupies both the shoreline and the water.
