

Trout reclassification template for public noticing

Henry Creek WBIC 887800

Pursuant to NR1.02(7)(c), Wis. Adm. Code, the Department of Natural resources gives public notice of the classification of 1mile of Henry Creek in Dane County as a Class 2 Trout water. This classification begins at the headwaters in T5N R8E S12 and ends with the confluence with the Sugar River in T5N R8E S14.

This classification is based upon a survey which indicates this portion of stream contains populations of trout made up of one or more age groups above age one year, in sufficient numbers to indicate substantial survival from one year to the next **and** receives stocking necessary to fully utilize the available habitat or sustain the fishery.

The Department shall waive any hearing requirement on this classification unless a written request for hearing is received (insert date 30 days from mailing date) .

Requests should be sent to:
