

Trout reclassification template for public noticing

Mount Vernon Creek WBIC 886600

Pursuant to NR1.02(7)(c), Wis. Adm. Code, the Department of Natural resources gives public notice of the classification of 5.9 miles of Mount Vernon Creek in Dane County as a Class 1 Trout water. This classification begins at the confluence of Deer Creek and Frye Feeder in T6N R7E S33 and ends with the confluence with the West Branch Sugar River in T5N R7E S13.

This classification is based upon a survey which indicates this portion of stream contains trout spawning habitat and naturally produced fry, fingerling, and yearling trout in sufficient numbers to utilize trout habitat.

The Department shall waive any hearing requirement on this classification unless a written request for hearing is received (insert date 30 days from mailing date) .

Requests should be sent to:

Kurt Welke
