TOWN OF TWO RIVERS
CONDITION REPORT

This river is used very heavily by water skiers and jet skiers.

West of our No Wake Zone are many homes, plus the river has two dams in Shoto. Therefore the river becomes very shallow and the damage to the shores is deemed to be intolerable.

The boats are seldomly a problem. However the jet skis with the shallow draft come too far up the river and create most of the problems.

The area close to the dams is a good fishing area, as it is shallow, thus many fisherman wade in the river.
