Dear Ms. Sasso:

Congratulations! On behalf of the Governor, we are pleased to forward to you a grant agreement for financial assistance for the following project: *Respect Our Waters Nonpoint Sourced Educational Campaign for Greater Milwaukee Watersheds*

This grant, and any reimbursements made under it, is governed by very specific statute and administrative code provisions. Accordingly, please read the grant documents thoroughly, paying particular attention to the Scope and Conditions sections for eligibility, grantee requirements and reimbursement provisions. There are also a number of activities where you must obtain prior departmental review and authorization before proceeding; *please see Conditions section of your grant agreement.*

You are obligated to submit a Final Report with your final reimbursement request for the projects completed under this grant; products developed under the grant are a required component.

To accept this grant, please review the agreement and transmit the DNR Copy signed by the authorized government official, along with the completed Grantee Contact Page, as well as evidence that your community has committed the necessary funding for the local share, to the Bureau of Community Financial Assistance using one of the return methods below. URBAN GRANTEE RESPONSIBILITIES

1. Review the grant/amendment document with the departmental project manager listed on the grant. In particular, note the project's authorized scope, the cost-share rate established, the maximum reimbursement amount, and the timeframe for the project period. The grant Conditions also spell-out restrictions on the grant and its reimbursements. Be especially aware of the requirements relating to mandatory erosion & storm water controls and, in this grant, to the specific eligibility issues relating to use of municipal staff on a planning project, as well as the requirement for a truly comprehensive approach to the applicable performance standard.
2. Return evidence of the "local share" required to complete the project with your signed grant document: this component was a key element in scoring; and, given the restrictive project timeframe, coupled with the competition for available grant dollars, grant commitments must be reserved for only those communities able to proceed directly.
3. The planning product must provide a review of the potential within the project area for permitting issues which may affect the installation of recommended BMPs. Examples include: Chapter 30 and wetland permits, environmental hazards, archeological/historical site clearances, and endangered resource issues.
4. Grant payments (cost-sharing) are made on a reimbursement basis. When you incur and pay expenses for this project, you must submit a reimbursement request -- along with the required payment verification (consultant or contractor billings, payment vouchers). You may send requests as frequently as you'd like.
5. At the end of each quarter, you are also required to provide your project manager with a report detailing the progress to-date and updating the project schedule -- difficulties or delays, if any; changes in the timetable; adjustments in the budget; modifications in the contract. A final report is similarly necessary.
6. All financial records pertaining to this grant must be retained for a period of three (3) years following the conclusion of the grant period, or three (3) years after the final reimbursement, whichever is later. If circumstances warrant, the department may require that you retain such records for a longer period to accommodate a final audit of grant transactions.

To Whom It May Concern,

For the fifth year in a row, Sweet Water is working to advance the *Respect Our Waters* outreach campaign that is designed to directly meet the information and education (I&E) requirements of the WI DNR's NR 216.07 stormwater discharge permit program. The campaign uses a variety of efforts to encourage direct public involvement in nonpoint source pollution reduction efforts.

The purpose of this letter is to provide evidence of the local grant share cost provided by participating communities. The attached budget shows that these communities have committed the necessary funding to complete the project and is available through Sweet Water.

We would like to thank MMSD, the participating communities, as well as Wisconsin Department of Natural Resources staff members for their continued involvement in the program. Our team looks forward to another successful campaign.

If you have any questions, I can be contacted at reid@swwtwater.org or 414-382-1766. We greatly appreciate your support of this important initiative. Thank you.

Sincerely,

Linda Reid
Executive Director
