Exotic Species Annual Monitoring Report

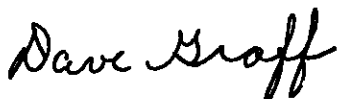

Dear Ms. Magalie R. Salas:

On July 28, 2015 Crystal Falls city employee Dave Graff and Michigan DNR Fisheries Technician Mark Mylchreest, monitored the shoreline with a boat from a point approximately 1.5 miles upstream of the dam down to the boat landing on the eastern shore of the impoundment. Areas between the boat landing and Fairbanks Road were visually inspected from the shore.

No individual or populations of either loosestrife or Eurasian water milfoil were found.

We hereby file one original and eight copies of this letter with the Commission. A copy of this report is also being submitted to Michigan Department of Natural Resources and U.S. Fish and Wildlife Service.

Sincerely,

Dave Graff
