FEDERAL ENERGY  
REGULATORY COMMISSION

***Stevens Point Hydroelectric Project, FERC No. 2110 – Article 405, Exotic Species Monitoring Report – 2005***

Dear Ms. Salas:

In accordance with the order approving the Exotic Species Control Plan, Consolidated Water Power Company (CWPCo) is filing the monitoring report for 2005.

CWPCo conducted monitoring during the summer of 2005 on the above Project. Inspections were completed by vehicle and boat (where necessary). No observances of Eurasian milfoil or curly-leaf pondweed were noted. Purple Loosestrife was observed sporadically and smaller colonies were removed to the best extent possible. A Purple Loosestrife publication (PUBL-WM-250-95) provided by the Wisconsin Department of Natural Resources is provided to the public when they request copies of our recreation map. These continue to be distributed.

CWPCo operating and maintenance personnel informally monitor for the presence of zebra mussels during the course of their normal work duties. No zebra mussel observations were reported in 2005.

CWPCo will continue with the annual monitoring and formal biennial reporting. The next formal report is due to the FERC by December 31, 2006.

Sincerely,

CONSOLIDATED WATER POWER COMPANY

Mike Schreier  
Resources Manager
