

This form is designed to tell us where you have placed your purple loosestrife biocontrol insects, as well as give us important information about the receiving wetland. You are the only one who can give us this valuable information. And since purple loosestrife is a state-restricted plant under NR-40 regulations, reporting where you put loosestrife plants for distributing biocontrol beetles is required by law, (please report all biocontrol insect releases, even if not on potted plants). Use a GPS unit for latitude and longitude data and reading accuracy and/or describe the location completely. Estimate the numbers as best you can (e.g. a football field is ~ 1 acre). Thank you for your important contribution to the health of Wisconsin's wetlands!

Notice: Information on this voluntary form is collected under ss. 33.02 and 281.11, Wis. Stats. Personally identifiable information collected on this form will be incorporated into the DNR Surface Water Integrated Monitoring System (SWIMS) Database. It is not intended to be used for any other purposes, but may be made available to requesters under Wisconsin's Open Records laws, ss. 19.32 - 19.39, Wis. Stats.

Data Collector / Volunteer Names		
Primary Data Collector Name Anne Kretschman		Additional Data Collector Names Blair Beyer, Katie Caldwell
Phone Number (877) 543-2085	Email Anne@discoverycenter.net	Mailing Address P.O. Box 237 or 14006 Discovery Center Lane, Manitowish Waters, WI 54545
Date and Time		
Date 6/28/16-8/15/16	Time	
Site Location		
County Vilas County	Nearest City/Village/Town Manitowish Waters	
Location Description (ex. CTH K at Town Line Road) Tenderfoot Lake		
Latitude(WGS84 format) 46°13'07.7"N	Longitude(WGS84 format) 89°31'42.7"W	GPS Reading Accuracy 6.2 meters
Landowner Name (and phone number if known): Public		
Land Ownership Type (circle one): private federal state county local government unknown		
Site Plant Data		
Acreage of Purple Loosestrife (circle one) less than 1/4 acre 1/2-1 acre 1-10 acres more than 10 acres		
Purple Loosestrife Coverage on Large Sites (circle one) 0-25% 26-50% 51-75% 76-100%		
Number of Purple Loosestrife Plants on Small Sites (circle one) 1-10 11-49 50+		
Wetland location/type (circle all that apply): lake/pond edge stream edge roadside wooded area ditch field other _____		
Site Insect Release Details		
Was a stake or flag used to mark site? Yes No Type _____		Specific directions (ex. ~100 ft in from side of road)
If returning to site, was stake or flage found? Type _____		
Photo File Name(s):		
Method of Release(circle one) potted plants with beetles just adult beetles		# of potted plants 8 # of adult beetles released _____
Weather (temp, wind, clouds) Sunny, very little wind		Insect condition... (check all that apply) <input checked="" type="checkbox"/> released in good condition? <input type="checkbox"/> released in poor condition? <input checked="" type="checkbox"/> pot placed next to field plant? <input checked="" type="checkbox"/> if releasing adults, placed directly on field plants? <input type="checkbox"/> tops of potted plants entwined with tops of field plants?
Additional Comments:		

Please name photo files with site number and date and send to invasive.species@wi.gov. To enter data online, please visit <http://dnr.wi.gov/invasives/loosestrife>.

Send completed date sheets to Dept. Of Natural Resources - WT/4, P.O. Box 7921, Madison WI 53791-9087
