RE: Chalk Hill Hydroelectric Project, FERC No. 2394-038  
Article 410  
Purple Loosestrife and Eurasian Water Milfoil Monitoring

Please find the enclosed results of monitoring for purple loosestrife and Eurasian water milfoil at the Chalk Hill Project.

Wisconsin Electric is by this letter, filing one original and eight additional copies of these results with the Secretary of FERC in compliance with order 2394-013 issued December 11, 1997. This will be the second and final filing of these results with the Commission. In future years, this report will be only sent to the resource agencies.

In addition to annual monitoring, Wisconsin Electric continues to post information on identifying and preventing the spread of purple loosestrife and Eurasian water milfoil on bulletin boards at recreation Areas 3 and 4.

Please feel free to call me at (414) 221-2413, if you have any questions on this matter.

Sincerely,  
  
Rita L. Hayen, P.E.  
Project Manager, Hydro Licensing

**FERC DOCKETED**  
AUG 27 1999

9908300187-3

**Report for 1999 on Monitoring  
for Purple Loosestrife  
and Eurasian Water Milfoil  
at the Chalk Hill Project - FERC 2394**

The entire shoreline of the Chalk Hill impoundment was visually surveyed by Wisconsin Electric Power Company scientific staff (John Hrobar and Noel Cutright) in a boat. All waters and wetlands within the project boundary were surveyed, including those areas of the impoundment supporting growth of submersed aquatic plants. The survey was conducted on July 28, 1999. NO purple loosestrife (*Lythrum salicaria*) plants or Eurasian water milfoil (*Myriophyllum spicatum*) were found.

# Certificate of Service

I hereby certify that I have this day served the foregoing document upon all entities specified in the order to issue license to be consulted on matters related to the Commission filing. Service was done pursuant to Rule 2010 of FERC's Rules of Practice and Procedure 18 CFR, Section 385.2010

Dated this day Thursday, August 26, 1999.
