

Friends of the Branch River Watershed Action Plan
River Planning Grant RP-288-16
February 15, 2016 through December 31, 2017

Final Report
June 18, 2018

RECEIVED

JUN 21 2018

DNR GREEN BAY

Project Goals and Objectives

To support the Friends of the Branch River Watershed as the group continues to build appreciation for and stewardship of the Branch River and the greater Manitowoc River basin.

Project Products and Deliverables

FOBR hosted several programs at the Dodge Preserve during the grant cycle that were used as outreach events in getting community members to the river.

Several river clean up events were also hosted especially near bridge crossings where new signs were installed. FOBR also participated in the Project RED training held at Woodland Dunes.

Educational seminars included "Wild Edibles" by Rob Zimmer, the annual presentation by the Fox Valley Herp Club, and a family fun day with Dan Fager at the Dodge Preserve.

LNRP assisted the Friends of the Branch River with outreach using both our own newsletter and local media.

The flyers, programs, and newsletter articles have been uploaded onto a disk that is enclosed with this report.
