

Resolution RPC No. 981

Amending the *Dane County Land Use and Transportation Plan* and *Water Quality Plan* Revising the Cross Plains Urban Service Area Boundary and Environmental Corridors in the Towns of Berry and Cross Plains

WHEREAS, the Dane County Regional Planning Commission has adopted, amended and reaffirmed a *Dane County Land Use and Transportation Plan* and *Water Quality Plan*; and

WHEREAS, said plans delineate urban service areas as amended through January 2003; and

WHEREAS, the Village of Cross Plains has requested an addition to the Cross Plains Urban Service Area, and has based the request on an amendment to the Village of Cross Plains Master Plan, adopted in 1997; and

WHEREAS, a staff analysis of the proposed amendment has been prepared, which indicates that the amendment is generally consistent with adopted regional plans and policies;

NOW, THEREFORE, BE IT RESOLVED that in accordance with §66.0309, Wis. Stats., and Sec. 208 of Public Law 92-500, the Dane County Regional Planning Commission amends the *Dane County Land Use and Transportation Plan* and *Water Quality Plan* by revising the Cross Plains Urban Service Area boundary and environmental corridors as shown on the attached map.

Approval of this amendment is based on the land use and urban service plans submitted in support of this amendment and on the condition that the Village of Cross Plains pursue the following:

1. Submit detailed stormwater management plans for DCRPC and DCLCD staff review and approval prior to development. Plans to include measures to maximize infiltration, and mitigate the adverse water quality and quantity impacts of the proposed development to the maximum extent practicable. Stormwater facilities to be publicly managed.
2. Install the stormwater facilities serving each area prior to other land disturbing activities in that area.

It is also strongly recommended that the Village pursue the following:

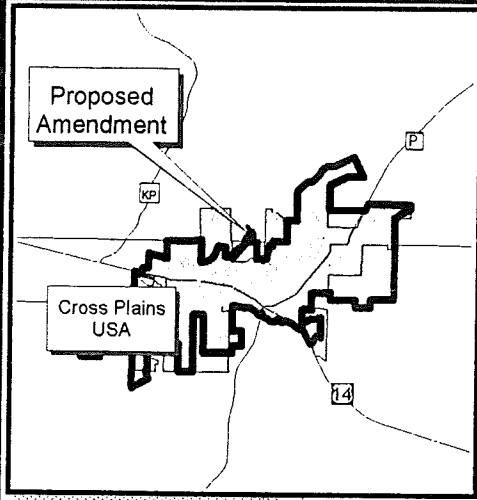

1. An archaeological survey of the amendment area be conducted by a certified archaeologist, and any discovered archaeological resources or sites be protected.
2. Include provision for safe pedestrian movement (sidewalks) in street construction and reconstruction projects.
