

Andrew Teal

Subject: Invasive Species Coastal Wetlands Field Trip and TT Meeting

Start: Mon 10/14/2019 9:30 AM
End: Mon 10/14/2019 12:30 PM
Show Time As: Tentative

Recurrence: (none)

Organizer: Bates, Jeremy M - DNR

Importance: High

Thanks to all who participated in the poll. Let's meet Monday October 14 from 9:30-12:30. I hope that still works for most of you. If you need to meet up with us at a later point in the visit, that's fine just let me know.

Our objectives for this meeting is to:

1. Familiarize tech team with management recommendations and reform tech team for new implementation project
2. Share/view initial results of Brule Lagoon Cattail and Yellow iris management
3. Plan Queen of the Meadow control in Cranberry River Wetland and other sites
4. Discuss management options in Bark Bay Slough

Here is a tentative agenda.

9:30 am Meet at Parking lot at the end of Clevedon Road (see map)
9:45-10:45 Brule River Lagoon visit
10:45-11:00 Travel to Cranberry River mouth in Herbster (see map)
11:00- 11:45 Queen of the Meadow Control Site Visit (hand pulling is proposed for control still this year)
11:45-11:50 Travel to Bark Bay Slough Crossing (see map)
11:50-12:30 Bark Bay Slough Native Phragmites viewing

Make sure to bring boots and binoculars.

Afterword's we could stop for lunch in Herbster or Brule for those interested in continuing the discussion.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
