OUTSTANDING RESOURCE WATER EVALUATION (continued)

Stream Name: Fryes Feeder
Reach Designation: Run line

CRITERIA

RELATED INFORMATION

SOURCES OF POLLUTION

No significant impacts from point sources or culturally induced nonpoint sources As a headwater stream of Mt Vernon Creek, it provides an excellent trout fishery and water quality in spite some non-point source problems

If this stream reach did not receive a check in each of the 5 categories but, based on your professional judgement and overriding environmental concerns, you still believe that this should be an Outstanding Resource Water, explain why.
