OUTSTANDING AND EXCEPTIONAL RESOURCE WATER EVALUATION - STREAMS(continued)

Stream Name: White River in the Upper Fox River Basin

Reach Designation: From the Neshkoro Mill Pond dam downstream to the Fox River

CRITERIA

RELATED INFORMATION

SOURCES OF POLLUTION

No significant impacts from actual or potential point sources or culturally induced nonpoint sources

The Village of Neshkoro WWTP will discharge to an unnamed tributary to the White River. Because of the close proximity of the discharge point to the White River, secondary limits have been recommended. These limits are considered protective of water quality of the White River.

If this waterbody did not receive a check in each of the 4 categories, but based on your professional judgement and overriding environmental concerns, you still believe that this should be an Outstanding or Exceptional Resource Water, explain why.
