Farm Area

If this waterbody did not receive a check in each of the 4 categories, but based on your professional judgement and overriding environmental concerns, you still believe that this should be an Outstanding or Exceptional Resource Water, explain why.

Dock Smith Br. enters Castle Rock Cr. approximately 1/2 mile below the large spring and contributes 20% of the flow to Castle Rock Cr. Since Dock Smith Br. is a major class II tributary to Castle Rock Cr. it should be classified as an Exceptional Resource Water.
