USDA Service Center, 127 Commerce Drive
Luxemburg, WI, 54217

Dear Sir:

Project Information: Runoff Management Calendar Year 2010-2011 Targeted Runoff Management (TRM) Grant Application: From the Kewaunee County Land Conservation and Water Conservation Department for the Dahlke Farm Manure Storage System

Thank you for submitting an application for a TRM Grant.

Using the criteria included in the grant application materials, Departmental staff reviewed and scored each application. All scored applications were ranked, in descending order, based upon the score assigned to it by reviewers. Projects were selected for funding based on application score and available funding.

Unfortunately, sufficient monies are not available to fund your project at this time. However, there is a reasonable possibility that the Department might be able to offer a grant award for this project sometime in the first calendar quarter of 2010. This is because the Department anticipates that some of our current grantees may be unable to use all of the funds they were allocated. We typically are able to determine this amount early in the calendar year. Based on past experience and the rank position of your project, we believe there is a strong possibility we will be able to extend a grant offer to you. Please consider this possibility in finalizing your 2010 budgets and staffing plans.

If you have any questions concerning future projects you would like to propose, please contact your Regional Nonpoint Source Coordinator, at the telephone number listed below. If you have any questions about this year's application, please contact Kathleen Thompson at (608) 267-7568 or e-mail at: Kathleen.Thompson@Wisconsin.gov.

Sincerely,

Original signed by:

Gordon R. Stevenson, P. E.
Chief
Runoff Management Section
