No, it is north-west of the buildings; in the pasture lot. I will send a new long/lat.

Davina

Andy,

Judging by the latitude and longitude you reported in the Final Report, and as plotted by the DNR's WTVIEWER:

latitude: 44 degrees North, 28 minutes, 21.8 seconds,  
longitude: 87 degrees West, 42 minutes, 35.9 seconds (see attached)

it appears that the new circular manure storage facility is sited in an existing structure (?? Concrete feed lot or barn??). Is that the correct location?

Please let me know, so I may correct our records

Thank you.
