CRITERIA

RELATED INFORMATION

SOURCES OF POLLUTION

[] No significant impacts from point sources or culturally induced nonpoint sources

Many discharges of Pt Npt sources, but system assimilates them if they don't disrupt its use.

If this stream reach did not receive a check in each of the 5 categories but, based on your professional judgement and overriding environmental concerns, you still believe that this should be an Outstanding Resource Water, explain why.

Warm-water stream with annual fish migrations of white bass-wall eyes. Icee sturgeon spawning in stream. Trophy fishing for flathead catfish.
