

OUTSTANDING AND EXCEPTIONAL RESOURCE WATER EVALUATION - STREAMS

Stream Name: HUNTING RIVER (Langlade Co)

Reach Designation: Source To Wolf River (17.4 mi approx)

CRITERIA

RELATED INFORMATION

IMPORTANT FISHERY

- Excellent Population Levels/Standing Stocks
- Outstanding Size Structure of Stocks
- Trophy Fishery
- Outstanding Ecological Diversity
- Endangered, Threatened, or Watch List Species or Unique Strains

Native Brook trout - Stocked Brown

SIGNIFICANT RECREATION OR PRESERVATION USE

- Provides Outstanding Fishing Experience
- Provides Other Outstanding Recreational Experiences or Special Uses
- Public Fishing Grounds
- State or Federal Wildlife Refuge
- State Scientific or Natural Area
- Largely Wild and Undeveloped Watershed
- Largely Undeveloped Shoreline and "Viewshed"

WATER QUALITY

- Excellent Water Quality
- No Known Standards Violations
- No Existing or Potential Water Quality Problems

OUTSTANDING AND EXCEPTIONAL RESOURCE WATER EVALUATION - STREAMS(continued)

Stream Name: Hunting River (Langlade Co.)

Reach Designation: Total length.

CRITERIA

RELATED INFORMATION

SOURCES OF POLLUTION

No significant impacts from actual or potential point sources or culturally induced nonpoint sources

If this waterbody did not receive a check in each of the 4 categories, but based on your professional judgement and overriding environmental concerns, you still believe that this should be an Outstanding or Exceptional Resource Water, explain why.

As a major feeder of the upper Wolf River, the Hunting River is the high quality cold water which makes the Wolf a trout stream from their confluence, downstream. To protect the upper Wolf River and the state's investment in shoreline acquisition on both rivers, the Hunting should also be Outstanding Resource Waters.
