SIGNIFICANT RECREATION OR PRESERVATION USE

- Provides Outstanding Fishing Experience
- Provides Other Outstanding Recreational Experiences or Special Uses
- Public Fishing Grounds
- State or Federal Wildlife Refuge
- State Scientific or Natural Area
- Largely Wild and Undeveloped Watershed
- Largely Undeveloped Shoreline and "Viewshed"

Trapping

WATER QUALITY

- Excellent Water Quality
- No Known Standards Violations
- No Existing or Potential Water Quality Problems

OUTSTANDING AND EXCEPTIONAL RESOURCE WATER EVALUATION - STREAMS(continued)

Stream Name: Lily River and East Branch of Lily River (15.6 mi)

Reach Designation: Source To confluence with Wolf River

CRITERIA

RELATED INFORMATION

SOURCES OF POLLUTION

No significant impacts from actual or potential point sources or culturally induced nonpoint sources

If this waterbody did not receive a check in each of the 4 categories, but based on your professional judgement and overriding environmental concerns, you still believe that this should be an Outstanding or Exceptional Resource Water, explain why.

The Lily River is also a major feeder stream of the Wolf River and should have the same protection classification to assure its continued contribution of high quality trout waters. It should have Outstanding Resource Water protection
