CRITERIA

RELATED INFORMATION

SOURCES OF POLLUTION

No significant impacts from actual or potential point sources or culturally induced nonpoint sources

If this waterbody did not receive a check in each of the 4 categories, but based on your professional judgement and overriding environmental concerns, you still believe that this should be an Outstanding or Exceptional Resource Water, explain why.

Should make ERW category, despite the fact that it is mostly a stocked fishery, the Mid Br. is heavily fished.

The mid branch becomes the Main Peshtigo after junction with the North Br. - Main Peshtigo is in ORW category. If downstream portions are ORW then upstream portions need to protect downstream interests
