5. Additional Information. (Space will expand to fit your text.)

Practices cost-shared include; Barnyard Runoff Control & Milking Center Waste Control Systems. Truck Wash water is being hauled to N.E.W. Organic Digestion, LLC. As a condition of the Animal Waste Storage Permit issued by Brown County LWCD, Bradley Livestock Farms is now required to submit an annual Nutrient Management Plan by June 1st of each year. Photos with brief descriptions are attached for reference along with a narrative, and a WDNR Inspection Document from March 2010 of the site.

6. Summary of Project Challenges. (Space will expand to fit your text.)

Project was complicated by wet weather in the summer and early fall during construction which required removing saturated fill and replacing it with new material. High winds knocked down a structure on the site that caused some additional delays.
