Donald & Sally Weisenbeck  
S482 County Road AA  
Durand, WI 54736

Mr. & Mrs. Weisenbeck,

The purpose of this letter is to acknowledge that by constructing your Manure Storage Facility, you now comply with a portion of the Wisconsin Non-Point Pollution State Performance Standards in NR 151 Wis. Administrative Code. This manure storage facility at your farm located at T. 24N, R13W, Section 26, SE ¼ is adequate to meet the following standard:

NR 151.05 (2 & 2b) Manure Storage facilities – New Construction

In accordance with Ch NR 151, Wis Adm. Code, any practice or facility that is in compliance with a performance standard or prohibition on or after the effective date of the standard or prohibition, must remain in compliance regardless of whether cost sharing is provided to the owner or operator. Since you are now deemed in compliance with the performance standard and prohibition listed above, it is imperative that you and any future owners or operators maintain compliance with them. The Operation & Maintenance Plan that you received from Auth Consulting Associates is your guide to insure continued compliance.

I want to thank you for working with the county Land Conservation office. If you have any questions, please feel free to contact me at 608-685-6261.

Sincerely,

Julie Lindstrom  
Conservationist
