

## Individual CLMP Public Survey Comments

The Tomahawk Lake Property Owners Association (TLPOA) with assistance from Northern Environmental Technologies, Inc. and in cooperation with the Wisconsin Department of Natural Resources conducted a public survey to determine the concerns, views, and desires of shoreline residents, offshore residents, tourists, and local business establishments who serve the lake community. The survey was conducted in September of 2007. Results of the survey guided strategies and priorities in the development of the Comprehensive Lake Management Plan for the Tomahawk Lake system.

Certain questions within the public survey provided the opportunity for the survey respondents to provide comments. The following is a listing of the survey question and individual comments received.

Question # 2– Check all responses describing your affiliation with the lake and the community.

Responses received under - Other (please specify)

- Landowner
- Family member is year round shoreline land owner
- Channel
- Man made channel
- Frontage on channel
- Year round channel
- Year round all seasons – 50% WI, 50% IL
- UW-Madison research station
- Condo Association member
- Non owner

Question # 3 – If you are an Oneida County lakefront property owner, check the lake on which you own land. If you own land on more than one of the listed lakes, check all that apply.

Responses received under - Other (please specify)

- Indian Shores Campground
- Timber Ridge
- Channel
- Man made canal
- Shisgebogama

Responses received under – Other (please specify)

- Hiking & golfing
- Snowmobiling, cross country skiing
- Snorkeling
- Visiting with neighbors
- Work
- Snorkeling
- Snowmobiling
- Scuba diving
- Research & nutrition
- Snowmobiling
- Birding, rock collecting
- Relaxing

Question # 18 – Using the following scale, please indicate your support for the following aquatic plant management control techniques.

Responses received under – Other (please specify)

- Explore use of beetles
- Anything that's effective
- Whatever is necessary
- Inspection at public access
- Flouridone treatment
- Vacuum
- Taxing individuals to use lake to limit frequency
- Anything to control invasives!
- Let nature take its course
- We have a prison on the lake chain, and I would be for using prisoners hand pull them

- Hydraulic conveyor system
- Hydraulic conveyer system
- DNR/state employee inspect prior to launch of boat
- What is necessary?
- Hydraulic conveyor system
- Hydraulic siphon
- Hydraulic conveyor system

Question #21 – In your opinion how has the population of the sport fishery changed over the past ten years? (rate the change in abundance of each fish species below)

Responses received under – Other (please specify)

- Dogfish, white sucker
- Suckers
- Do not fish
- Rock Bass
- Perch

Question # 23 – What is the most important fish species for you? (check one)

Responses received under – Other (please specify)

- All of the above
- Wide variety of fish is best

Question # 26 – What is your vision for the Tomahawk Lake System watershed? (check the one you most would like to see)

Responses received under – Other (please specify)

- No individual response was received

Question # 27 – Please check all concerns you have for the Tomahawk Lake system and Tomahawk Lake watershed.

Responses received under – Other (please specify)

- Swimmer's itch ruins our swimming
- Salt from highways
- Fertilizer use
- Mercury in lake & fish
- Excessive tournament fishing
- Noise levels
