

## Wisconsin Department of Natural Resources SWIMS Project Summary

**General Project Information**

**Project ID:** SCR\_12\_CMP12  
**Name:** SCR\_12\_CMP12 - Rock County CBSM NUTRIENT MONITORING  
**Type:** Targeted Monitoring  
**Subtype:**  
**Status:** ACTIVE  
**Start Date:** 07/01/2011  
**End Date:** 06/30/2012  
**Purpose:** This is a Nutrient Baseline Monitoring effort to collect nutrient samples on Spring Brook Creek and Blackhawk Creek. The effort was initiated by Rock County LCD. They wanted to collect some baseline water quality samples prior to the 5200 cow dairy applying the first round of liquid manure. The facility will have 390days of storgae and a herd that will gnerate approximately 74 million gallons of manure annually.

Samples will be collected twice a month for (June, July, August, September, March, April, May) Once a month for October, November, and December). Samples will be preserved and mailed to SLOH for analysis.

**Objective:** Project Justification: Why is the project necessary and what management question is to be addressed?  
 This is a grass roots effort that has been initiated by Anne Miller and Rock County LCD. This effort will collect "PRE" water quality nutrient samples prior to the application of 73.6 million gallons of Liquid Manure from a 5200 cow dairy that will go in in 2011. The facility will be a permitted facility and will spread the first amount of liquid manure in the fall of 2011. The two stations for the monitoring will be Spring Brook Creek (791300) and Blackhawk Creek (797000). Anne Miller will be the CBSM Volunteer collecting the water chemistry samples for 2011-12. I will train Anne if we are successful in getting funding for the project.

**Comments:** Which category applies (leave that one and delete the others) Project Category 1: EPA Performance Measure SP 12 Project Category 2: 303(d) Impaired Waters List Project Category 3: Continuation of FY2010 Special Projects Project Category 4: New Projects

**Outcome:** Performance Measures: These are milestones that will be reported on in the Division Quarterly Report. Please estimate dates in a manner that encourages success. 1) Number of sample sites associated with the project. 2) Number of sampling events associated with project. 3) Estimated date when sample collection will be complete. 4) Estimated date when all data will be entered into appropriate database. 5) Estimated date when final report will be complete.

**People**

Name	Role	Status	Start Date	End Date	Organization	Comments
Miller, Anne	COORDINATOR	ACTIVE	07/01/2011	06/30/2012	Rock County Land Conservation Department	
SORGE, MICHAEL J	COORDINATOR	ACTIVE	07/01/2011	06/30/2012	Wisconsin DNR	

**Project Statuses**

Date	Reported By	Status	Comments
12/21/2011	MICHAEL SORGE	Progress: 25-50% C	The first set of sampling has been completed by Anne Miller at Rock County LCD. She has collected July through December samples. Samples have been submitted to SLOH, results are captured in SWIMS, data is being entered into excel spreadsheets for Black Hawk Creek and Spring Brook Creek. Sampling will continue till June 2013. Anne has made great efforts to make this project happen and deserves a great deal of credit for the success of this project.
08/10/2012	MICHAEL SORGE	Progress: 75-100% C	Sampling for 2011 and 2012 has been completed. The last round of samples was for the month of June 2012. Samples have all been processed at SLOH. Lab results are all captured in SWIMS and STORET. Data summarization and analysis needs to be completed during the Fall and Winter of 2012.

**Actions**
