

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: GLRI-9KM60
Name: Benthos & Plankton in WI Lake Michigan AOC (USGS # 9KM60)
Type: Great Lakes Restoration Initiative
Subtype: Accountability, Monitoring, Collaboration, Education, Partnership
Status: ACTIVE
Start Date: 07/01/2011
End Date: 06/30/2013
Purpose: Benthos (benthic invertebrate) and plankton (phytoplankton/zooplankton) communities in Wisconsin's four Lake Michigan Areas of Concern (AOCs; Menominee River, Lower Green Bay and Fox River, Sheboygan River, and Milwaukee Estuary) and six non-AOCs will be quantified. The inclusion of non-AOC sites will allow comparison of AOC sites to relatively unimpacted or less-impacted control sites with natural physical and chemical characteristics that are as close as possible to that of the AOCs. Comparison to less-impacted control sites as site pairs and as a group is consistent with the approaches used by other Great Lakes states, such as Michigan and Ohio (Michigan Department of Environmental Quality, 2008; Ohio EPA, 2008). The community data within and between the AOCs and non-AOCs will be analyzed and the differences and similarities will assist in determining the status of the communities and, when appropriate, support delisting of the "Degraded Benthos" and "Degradation of phytoplankton / zooplankton populations" beneficial use impairments in each AOC. This project is a cooperative agreement between the Wisconsin Department of Natural Resources (WDNR) and the US Geological Survey (USGS).
Objective:
Comments: DNR \$300,000 FY2012
Outcome:

People

Name	Role	Status	Start Date	End Date	Organization	Comments
Bell, Amanda	COORDINATOR	ACTIVE	05/23/2012		USGS

HRON, STACY L	COORDINATOR	ACTIVE	09/19/2011		Wisconsin DNR	

Project Statuses

Date	Reported By	Status	Comments
12/31/2011	LAUREL LAST	Progress: 0-25% Co	This project is being completed under contract with the USGS. The contract was drafted and approved by WDNR and USGS. The background research, site reconnaissance, equipment procurement and planning necessary before sampling are currently underway. A QAPP is in progress. Approx. 10% complete.
03/31/2012	STACY HRON	Progress: 0-25% Co	QAPP has been completed and submitted for approval. Preparations for field work were completed during this quarter with sampling anticipated to begin in April 2012.
06/30/2012	STACY HRON	Progress: 25-50% Co	QAPP Approved. First sampling event completed.
09/30/2012	STACY HRON	Progress: 50-75% Co	Field work has been completed. Data analysis and reporting will begin when analysis is complete.
12/31/2012	STACY HRON	Progress: 75-100% Co	Data analysis and reporting continue as analyses are completed and data is received.

Project Status Detail

Question	Answer
1. Reporting Timeframe (Q1) (Q2) (Q3) (Q4):	Q2 - October 1 to September 30, 2012
2. Amount expended this reporting period:	see parent project for details

Wisconsin Department of Natural Resources SWIMS Project Summary

Question	Answer
3. Subcontracts or subgrants awarded this reporting period:	none
4. QAPP (Project Plan) status:	approved
5. Local services and/or products purchased this reporting period:	none
6. Number of jobs created this reporting period:	none
7. Work accomplished this reporting period:	Data from the State Laboratory of Hygiene has been returned for total and volatile suspended solids, chlorophyll a, and sand/silt/clay size. Community data for the soft algae and one benthos sampling has been returned and data analyses have begun on these data. The remainder of the benthos, zooplankton and diatoms samples are due to be returned next quarter.
8. Work goals for coming reporting period:	Data analysis will continue as the other data is returned. Writing for the various reports has begun and will continue as data analysis progresses.

Actions

Action	Detailed Description	Start	End Date	Status
Grant Awarded	Benthos (benthic invertebrate) and plankton (phytoplankton/zooplankton) communities in Wisconsin's four Lake Michigan Areas of Concern (AOCs; Menominee River, Lower Green Bay and Fox River, Sheboygan River, and Milwaukee Estuary) and six non-AOCs will be quantified.	*****	06/30/2013	PROPOSED
