

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: GLRI-00E00876-sub3

Name: Taylor Drive & Indiana Ave Area Wetland Restoration

Type: Great Lakes Restoration Initiative

Subtype: Habitat

Status: ACTIVE

Start Date: 07/29/2011

End Date: 12/31/2099

Purpose: The Taylor Drive wetland rehabilitation project will improve the habitat at this existing wetland complex and connect this isolated system to adjacent wetlands and the Sheboygan River to enhance its function to fish and wildlife and improve water quality. Construction of Taylor Drive fragmented this wetland from an emergent wetland and a navigable tributary to the Sheboygan River to the east. The existing habitat in this wetland is degraded and has been significantly impacted by storm water runoff, flash flooding, and is heavily used by resident Canada goose populations. Adjacent riparian emergent wetland habitats are rare in the lower portions of the Sheboygan River, therefore restoring this type of habitat will increase fish and wildlife use at various life stages.

The purpose of this project is to restore connectivity of this wetland to the Sheboygan River and enhance the habitat for a variety of organisms including fish, waterfowl and herptiles. The target fish species is northern pike, specifically creating additional spawning area.

- Objective:**
- Create connectivity between the Sheboygan River and adjacent riparian wetlands.
 - Improve fish and wildlife habitat within the wetland complex.
 - Address storm water impacts to the wetland.

Comments: \$795,000

- Outcome:**
- Restoring approximately 10 acres of wetland and associated shoreline habitat near the Taylor Drive/Indiana Avenue intersection.
 - Restoring connectivity of this wetland to the river, allowing fish and aquatic organism passage.
 - Addressing the stormwater issues impacting the Taylor Drive wetlands

Project Statuses

Date	Reported By	Status	Comments
12/31/2011	LAUREL LAST	Progress: 0-25% Co	This work is being completed in partnership with the City of Sheboygan and Sheboygan County under a sub-award aid agreement. The agreement with these partners has been completed for the design phase of the project. A contractor has been hired to complete project design (along with 2 other projects) and the design is in progress. The QAPP is in progress as well. The USGS has been retained to collect and analyze hydrology and hydraulic data to support these restoration projects (see separate report). Approx. 20% complete Problems encountered: None.
03/31/2012	STACY HRON	Progress: 25-50% Co	Site design is underway and a QAPP was completed. Designs will be completed by the City of Sheboygan's contractor along with those for the Kiwanis Park, Wildwood Island and Shoreline Stabilization projects. Construction of these projects will be bid, contracts awarded and construction will begin in the next quarter.
06/30/2012	STACY HRON	Progress: 25-50% Co	Design plans were completed, bidding was completed and a contract is now being negotiated with the contractor for the City of

09/30/2012	STACY HRON	Progress: 50-75% C	Sheboygan. Construction of the habitat improvements will begin in July.
12/31/2012	STACY HRON	Progress: 75-100% C	Construction of the habitat improvements is underway.
03/31/2013	STACY HRON	Progress: 75-100% C	Construction of the habitat improvements was completed. Sites will be monitored to ensure establishment of vegetation. Repairs will be made if necessary.
			Installation of landscaping not completed last fall will be carried out as weather permits. Sites will be monitored to ensure establishment of vegetation. Repairs will be made if necessary.

Project Status Detail

Question	Answer
1. Reporting Timeframe (Q1) (Q2) (Q3) (Q4):	Q3 - January 1 to March 31, 2013
2. Amount expended this reporting period:	see parent project for details
3. Subcontracts or subgrants awarded this reporting period:	none
4. QAPP (Project Plan) status:	QAPP approved 2-25-12
5. Local services and/or products purchased this reporting period:	none
6. Number of jobs created this reporting period:	none
7. Work accomplished this reporting period:	Sites were monitored.
8. Work goals for coming reporting period:	Installation of landscaping not completed last fall will be carried out as weather permits. Sites will be monitored to ensure establishment of vegetation. Repairs will be made if necessary.
