5. Additional Information. (Space will expand to fit your text.)

Construction of new storm sewer system including pipes, inlets with sumps, grass swale, and outlet structure have been completed. Restoration of street surfaces and curbs will be completed during 2012 and paid for by the Town of Mercer.

6. Summary of Project Challenges. (Space will expand to fit your text.)

Coordination of both the project design and construction were challenging due to work being done in conjunction with USH 51 reconstruction project by the Wisconsin Department of Transportation. Construction work went relatively quick with low ground water conditions and a relatively dry construction season in 2011.
